

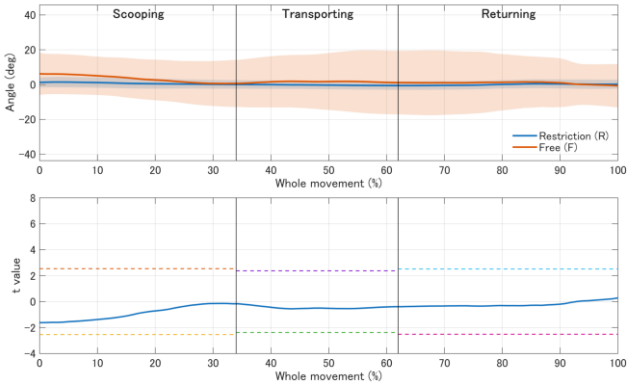

Figure S1. Concatenated time-series wrist radial/ulnar deviation angle and SPM1D results during spoon feeding.

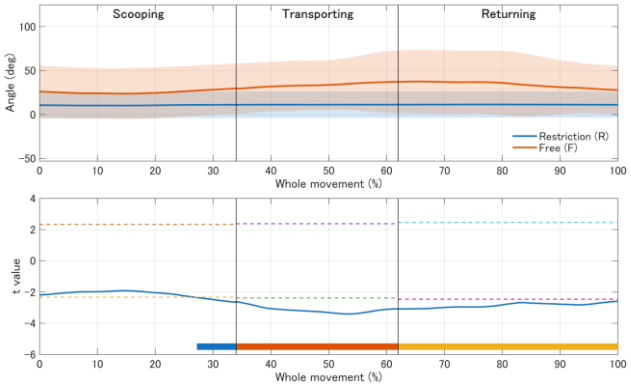

Figure S2. Concatenated time-series wrist extension angle and SPM1D results during spoon feeding.

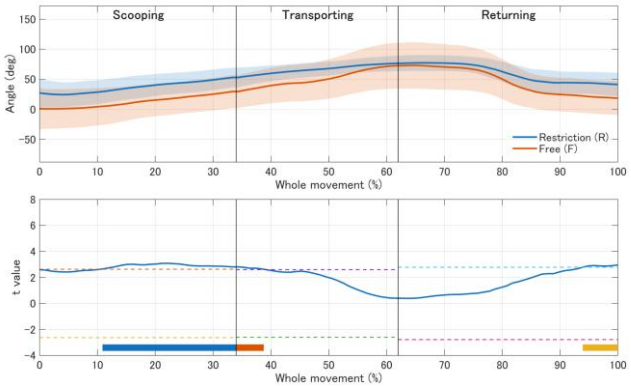

Figure S3. Concatenated time-series forearm supination angle and SPM1D results during spoon feeding.

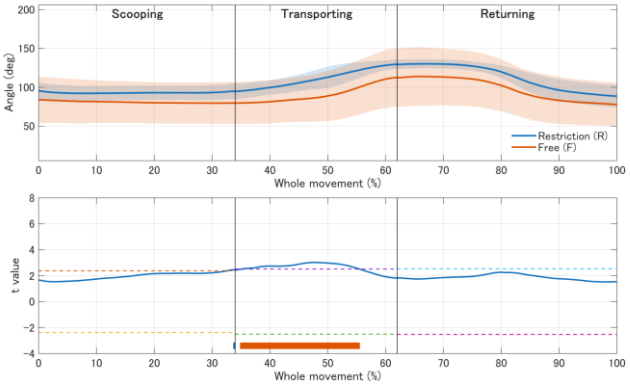

Figure S4. Concatenated time-series elbow flexion angle and SPM1D results during spoon feeding.

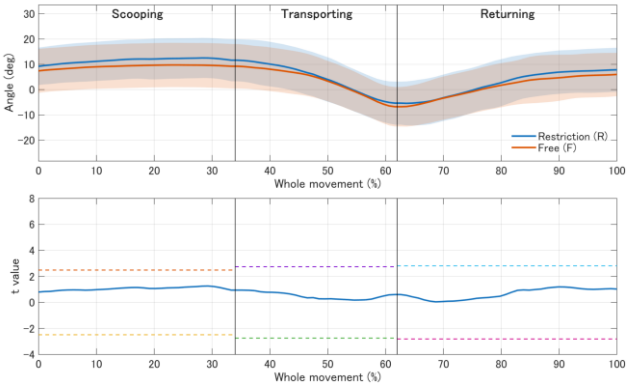

Figure S5. Concatenated time-series neck flexion angle and SPM1D results during spoon feeding.

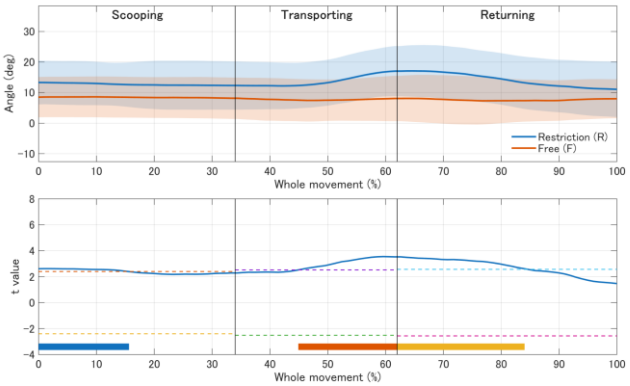

Figure S6. Concatenated time-series thoracic flexion angle and SPM1D results during spoon feeding.

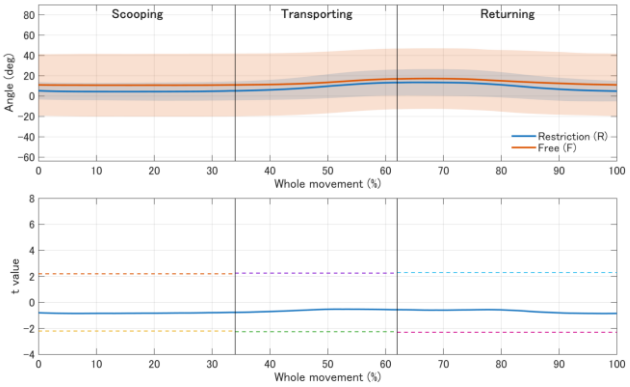

Figure S7. Concatenated time-series lumbar flexion angle and SPM1D results during spoon feeding.

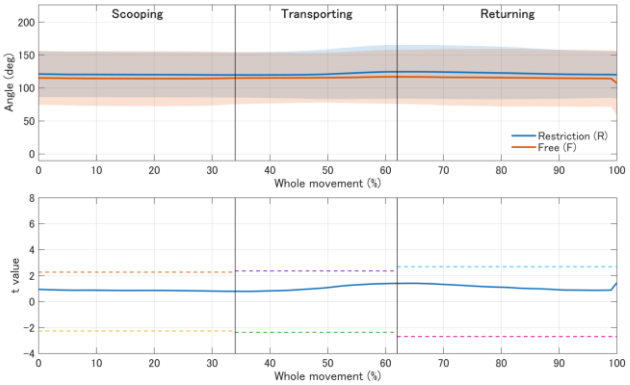

Figure S8. Concatenated time-series scapular horizontal adduction angle and SPM1D results during spoon feeding.
