Supplementary Figure

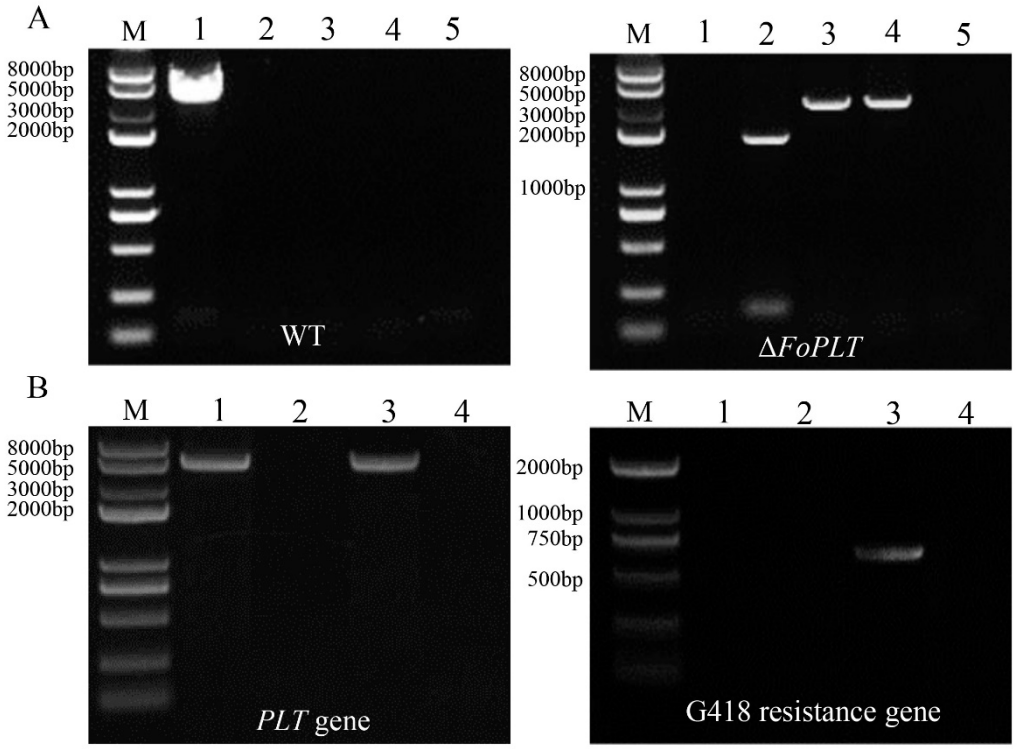

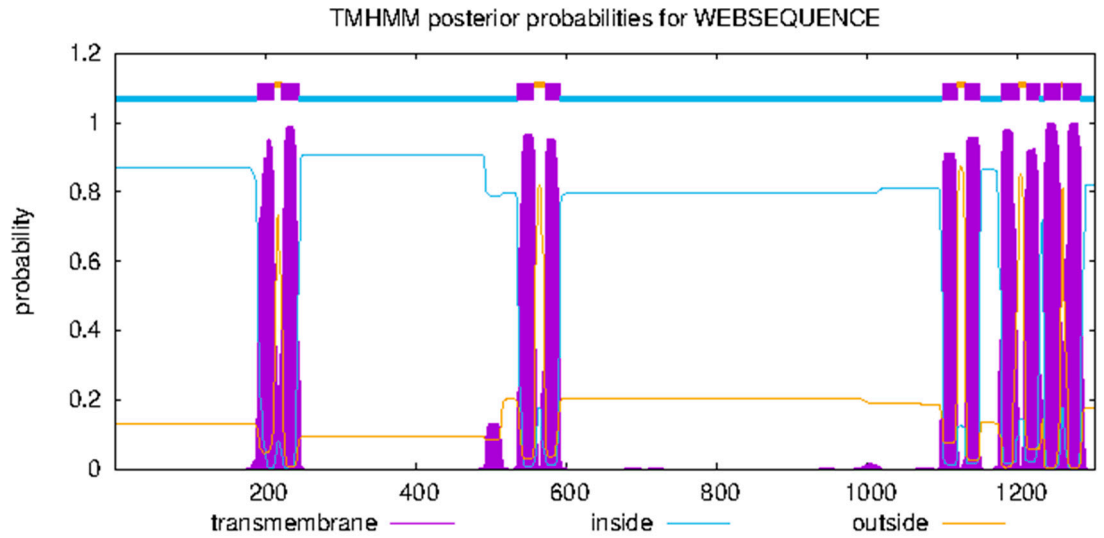

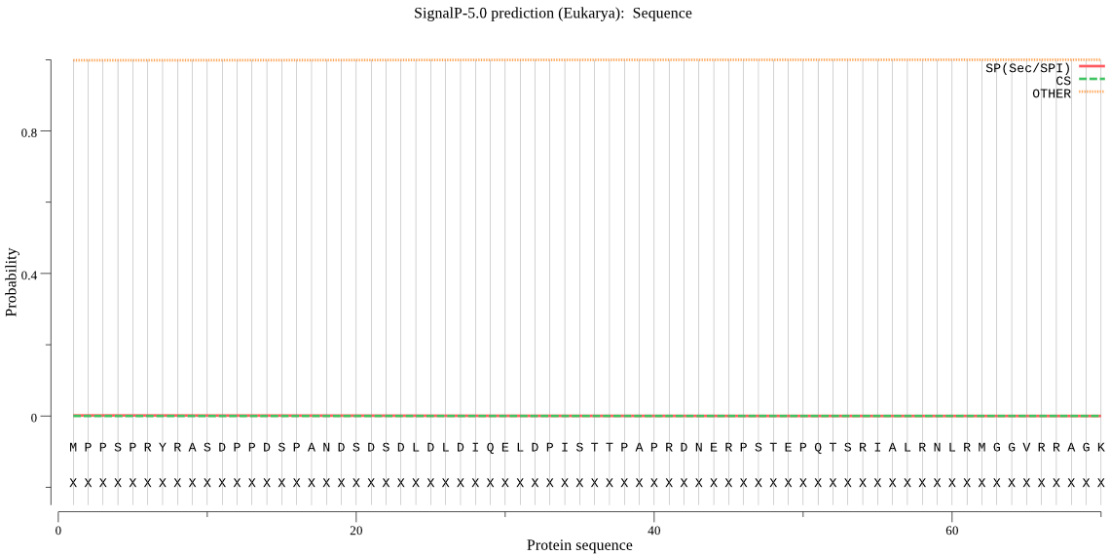

Figure S1 Identification of *FoPLT* gene deletion and complementation mutants (**A**) Identification of *FoPLT* gene deletion mutants. M: maker 1: detection of target gene *FoPLT*, 2: detection of hygromycin, 3: detection of upstream fragments, 4: detection of downstream fragments, 5: ddH_2O. (**B**) identification of *FoPLT* complementation mutants. M: Maker, 1: HS2, 2: Δ*FoPLT*, 3: Δ*FoPLT*-C, 4: ddH_2O.
