

Supplementary Figure S1. Cut-off values of arterial blood gas analysis variables for survival to hospital admission using receiver operating characteristic curves. AUC, area under the curve. (A) pH, (B) PaCO₂, (C) PaO₂, (D) Lactate.

Supplementary Figure S2. Cut-off values of arterial blood gas analysis variables for survival to discharge using receiver operating characteristic curves. AUC, area under the curve. (A) pH, (B) PaCO₂, (C) PaO₂, (D) Lactate.
