

Supplementary Information

Supplementary Figure S1: SB203580 and SB202190 effect on lipid droplet accumulation during the adipogenesis of 3T3-L1 cells. Representative images of intracellular lipid droplet (LD) formation in 3T3-L1 preadipocyte (D0) and adipocyte (D8) that were grown in the absence or presence of SB203580 (10 and 25 μ M) or SB202190 (25 μ M) by phase-contrast image at 400 x magnification.

Supplementary Figure S2: Effects of TAK-715 on Sorbitol-induced p38 MAPK phosphorylation in 3T3-L1 preadipocytes. 3T3-L1 preadipocytes were treated without or with Sorbitol (0.5 mM) in the presence or absence of TAK-715 at 10 μ M for 0.5 h. Whole-cell lysate was prepared and analysed by Western blotting. p-p38 MAPK, phosphorylated p38 MAPK; T-p38 MAPK, total p38 MAPK.
