

Supplemental Material: Association of Visiting the Physiotherapist with Mortality in the Spanish General Population: A Population-Based Cohort Study

Table S1. Details of the explanatory variables

VARIABLE	Description	Code Question Survey	Response options	CATEGORIES of response
Autonomous community residence	This variable is not coded in the National Health Survey 2011-2012. The enumerator has accessed this variable from other registers.			Andalucía Aragón Asturias Balears Canarias Cantabria Castilla y León Castilla-La Mancha Cataluña Comunitat Valenciana Extremadura Galicia Madrid Murcia Navarra País Vasco Rioja, La Ceuta Melilla
Sex		Proxy_3b	1.- Man	Man

			2.-Woman	Woma
Age group	Age has been categorised into the intervals shown in the last column, with a total of six intervals.	Proxy_4	Free field	< 35 years 35-54 years 55-64 years 65-74 years 75-84 years >= 85 years
Occupational social	<p>The definition proposed for each response category is as follows:</p> <p>I. Managers in the Public Administration and in companies with 10 or more employees. Professions associated with second and third cycle university degrees.</p> <p>II. Managers of companies with fewer than 10 employees. Professions associated with a first-cycle university degree. Technicians and support professionals. Artists and athletes.</p> <p>IIIa. Administrative type employees and administrative and financial management support professionals. Personal and security services workers.</p>			Social class I class contain a code in the variable constructed by NSI

	<p>IIIb. Self-employed workers</p> <p>IIIc. Supervisors of manual workers</p> <p>IVa. Skilled manual workers</p> <p>IVb Semi-skilled manual workers IVb.</p>			
	V. Unskilled workers.			<p>Social class II</p> <p>Social class III</p> <p>Social class IV</p> <p>Social class V</p> <p>Social class VI</p> <p>No record</p>
BMI	<p>For the calculation of this variable, the answers to questions 102 and 103 contained in the Health Determinants Module (R-Physical Characteristics) of the National Health Survey 2011-2012 will be considered.</p>	<p>102</p> <p>103</p>	Free field	<p>Normal</p> <p>Overweight</p> <p>Obesity</p> <p>NR/DK</p>
Country of birth	The response category is of the nominal type for this variable.	2	<p>Spanish</p> <p>Foreign</p> <p>Doesn't know</p> <p>No response</p>	<p>Spain</p> <p>Foreign</p>

Marital status	The response category is of the nominal type for this variable.	4	Single Married Widowed Legally separated Divorced Doesn't know No response	Single Married Widowed Separated Divorced
Education Level	.This variable is not coded in the National Health Survey 2011-2012. . The enumerator has accessed this variable from other registers. This variable has been categorised into the survey modes noted in the last column.			University VT Baccalaurate Secondary school Primary or less
Tobacco consumption	The response category is of the nominal type for this variable. The response categories are mutually exclusive. See in the last column.	105	Yes, smokes daily Smokes but not daily Doesn't smoke now, but has smoked before Doesn't smoke nor has ever smoked on a fair basis Doesn't know No response	Never Ex-smoker Smoker
Exposure to tobacco		117	Never or hardly ever Less than one hour a day Between 1 and 5 hours a day More than 5 hours a day	Never
smoke	The response category is of the frequency interval type for this variable. See in the last column.			< 1h/day > 1h/day

Alcohol risk		123	<p>Everyday</p> <p>From 3 to 6 times a week</p> <p>From once to twice a week</p> <p>From twice to 3 times a month</p> <p>Once a month or less</p>	Doesn't drink
	The response category is of the quantity range type for this variable. See in the last column.			<p>Low risk < 20/40 gr</p> <p>Risk 20/40 – 40/60 gr High risk > 40/60 gr</p>
Tobacco consumption	The response category is of the nominal type for this variable. The response categories are mutually exclusive. See in the last column.	105	<p>Yes, smokes daily</p> <p>Smokes but not daily</p> <p>Doesn't smoke now, but has smoked before</p> <p>Doesn't smoke nor has ever smoked on a fair basis</p> <p>Doesn't know</p> <p>No response</p>	<p>Never</p> <p>Ex-smoker</p> <p>Smoker</p>
Exposure to tobacco		117	<p>Never or hardly ever</p> <p>Less than one hour a day</p> <p>Between 1 and 5 hours a day</p> <p>More than 5 hours a day</p>	Never
smoke	The response category is of the frequency interval type for this variable. See in the last column.			<p>< 1h/day</p> <p>> 1h/day</p>

Alcohol risk		123	<p>Everyday</p> <p>From 3 to 6 times a week</p> <p>From once to twice a week</p> <p>From twice to 3 times a month</p> <p>Once a month or less</p>	Doesn't drink
	The response category is of the quantity range type for this variable. See in the last column.			<p>Low risk < 0/40 gr</p> <p>Risk 20/40 – 40/60 gr High risk > 40/60 gr</p>
Daily main activity	The response category is of the nominal type for this variable. See in the last column.	128	<p>Sitting most of the day.</p> <p>Standing most of the day without much movement or effort.</p> <p>Walking, carrying some weight, making frequent movements.</p> <p>Performing tasks that require great physical effort.</p> <p>Doesn't know</p> <p>No response</p>	<p>Sitting most of the time</p> <p>Standing most of the time</p> <p>Walking with weight</p> <p>Tasks with effort</p>

<p>Leisure physical activity</p>	<p>The response category is of the nominal type for this variable. See in the last column.</p>	<p>129</p>	<p>I do exercise I do some physical or sports activity occasionally I do physical activity several times a month I do sports or physical training several times a week Doesn't know No response</p>	<p>Sedentary Occasional physical activity Frequent physical activity Sports training</p>
<p>Breakfast</p>	<p>The response category is of the nominal type for this variable. See in the last column.</p>	<p>131</p>	<p>At home, before going out Away from home Don't usually have breakfast</p>	<p>At home Away from home Don't usually have breakfast</p>
<p>Fruit consumption</p>	<p>The response category for this variable is frequency intervals. See the frequency intervals in the last column.</p>	<p>133</p>	<p>Multiple choice table</p>	<p>Daily > 3 times/week once-twice/week < once/week never or hardly ever</p>

Vegetables consumption	The response category for this variable is frequency intervals. See the frequency intervals in the last column.	133	Multiple choice table	daily > 3 times/week once-twice/week < once/week never or hardly ever
Legume consumption	The response category for this variable is frequency intervals. See the frequency intervals in the last column.	133	Multiple choice table	daily > 3 times/week once-twice/week < once/week never or hardly ever
Dairy consumption	The response category for this variable is frequency intervals. See the frequency intervals in the last column.	133	Multiple choice table	daily > 3 times/week once-twice/week < once/week never or hardly ever
Fast food	The response category for this variable is frequency intervals. See the frequency intervals in the last column.	133	Multiple choice table	daily > 3 times/week once-twice/week < once/week never or hardly ever

Dental hygiene	The response category for this variable is frequency intervals. See the frequency intervals in the last column.	137	Occasionally, not every day Never Once a day Twice a day Three or more times a day Doesn't know No response	3 or more times / day twice/day once/day never or occasionally
Self-perceived health	The response category is of the nominal type for this variable. See in the last column.	26.6	Response scale	Very good Good Fair Bad Very bad
Any chronic disease	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes

AMI	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Other heart diseases	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Varicose veins	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Osteoarthritis	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes

Chronic neck pain	The response category is of the nominal type for this variable. See in the last column	21 a	Yes No Doesn't know No response	No Yes
Chronic low back pain	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Allergy	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Asthma	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
COPD	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Diabetes Mellitus	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Stomach ulcer	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes

Urinary incontinence	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
High cholesterol	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Cataracts	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Skin problems	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Chronic constipation	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Cirrhosis	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Depression	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes

Anxiety	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Other mental problems	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Ictus	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Migraine	The response category is of the nominal type for this variable. See in the last column.	21 a		No Yes
Haemorrhoids	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Malignant tumours	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Osteoporosis	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes

Thyroid problems	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Injuries or accidents	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
Accidents (last year)	The response category is of the nominal type for this variable. See in the last column.	21 a	Yes No Doesn't know No response	No Yes
GHQ12 mental health	The response category is of the nominal type for this variable. See in the last column.	P.40	Multiple choice table	Absence of psychopathology Suspicion Presence of psychopathology NR/DK
Activity limitation (last 2 weeks)	The response category is of the nominal type for this variable. See in the last column.	P.27	Free field Yes No	No Yes
Bed rest (last 2 weeks)	The response category is of the nominal type for this variable. See in the last column.	P.28	Free field Yes No Doesn't know No response	No Yes
Use of glasses or contact lenses	The response category is of the nominal type for this variable. See in the last column.	32	Yes No, never I'm blind and I can't see at all Doesn't know No response	No Yes

Table S2. Descriptives of the sample and proportion of visits to the physiotherapist in the last year according to explicative variables.

		Total		No Physiotherapy visit (last year)		Physiotherapy Visit (last year)		
		n	%	n	%	n	%	p-value

BMI: Body Mass Index; VT: Vocational Training; AH: Arterial hypertension; AMI: Acute Myocardial Infarction; COPD: Chronic Obstructive Pulmonary Disease; GHQ: General Health Questionnaire; CT scan: Computed Axial Tomography; MRI: Magnetic Resonance Imaging.

Table S4. Relative Risks estimated by Poisson models with robust variance.

		RR	CI 95%	p-value
Physiotherapist visit (last year)	Yes	0.699	(0.528-0.927)	0.013
BMI	Normal			
	Overweight	0.832	(0.699-0.992)	0.040
	Obesity	0.936	(0.77-1.137)	0.504
	NR/DK	1.081	(0.905-1.291)	0.391
Marital status	Single			
	Married	0.617	(0.488-0.779)	<0.001
	Widowed	0.758	(0.602-0.955)	0.019
	Separated	0.770	(0.505-1.174)	0.225
	Divorced	0.703	(0.389-1.271)	0.243
Net monthly household income	NR/DK			
	> € 2251	1.081	(0.792-1.475)	0.624
	€ 1551-2250	0.875	(0.69-1.11)	0.272
	€ 1051-1550	0.955	(0.779-1.171)	0.657
	€ 801-1050	0.915	(0.74-1.132)	0.415
	< € 800	0.935	(0.789-1.109)	0.441
Tobacco consumption	Never			
	Ex-smoker	1.085	(0.903-1.305)	0.384
	Smoker	1.479	(1.161-1.883)	0.002
Main activity daily	Sitting most of the time			
	Standing most of the time	0.659	(0.544-0.799)	<0.001
	Walking with weight	0.756	(0.521-1.097)	0.141
	Strenuous tasks	0.607	(0.201-1.834)	0.376
Leisure physical activity	Sedentary			
	Occasional physical activity	0.738	(0.619-0.88)	0.001
	Frequent physical activity	0.592	(0.337-1.039)	0.068
	Sports training	0.631	(0.391-1.018)	0.059

Legume consumption	Daily			
	> 3 times/week	0.998	(0.589-1.691)	0.995
	once-twice/week	0.968	(0.577-1.624)	0.902
	< once/week	0.958	(0.549-1.672)	0.881
		RR	CI 95%	p-value
	Never or hardly ever	1.395	(0.789-2.468)	0.253
Dental Hygiene	3 or more times/day			
	twice/day	1.326	(1.092-1.61)	0.004
	once/day	1.140	(0.948-1.372)	0.164
	Never or occasionally	1.275	(1.054-1.543)	0.012
Self-perceived health	Very good			
	Good	1.437	(0.949-2.175)	0.086
	Fair	1.994	(1.31-3.035)	0.001
	Bad	2.307	(1.494-3.563)	<0.001
	Very bad	2.609	(1.65-4.125)	<0.001
