

Figure S1. Tissues-Specific Insulin Sensitivity and Resistance Indexes. A) ISMI. B) IDA-IR. C) IRIEV). The results shown are the average of 10 different experiments \pm SEM. A and C graphs were analyzed by a Two-way ANOVA followed by a Bonferroni test. (*) Indicates a significant difference regarding the control group. **ISMI**, Muscle insulin sensitivity index; **IDA-IR**, Insulin resistance adipocyte dysfunction; **IRCV**, Index Cardiovascular Insulin Resistance.
