

Figure S1 Specificity of molecular marker *cgmt1*. M: DL2000 marker; Lanes 1-14: *Heterosigma akashiwo*; *Amphidinium carterae*; *Isochrysis galbana*; *Skeletonema costatum*; *Thalassiosira weissflogii*; *Alexandrium tamarensense*; *Karenia mikimotoi*; *Prorocentrum donghaiense*; *Aureococcus anophagefferens*; *Chaetoceros curvisetus*; *Chattonella marina*; *Phaeocystis globosa*; *Coscinodiscus wailesii*; *Coscinodiscus* sp.; Lanes 15-20: six *C. granii* strains (CNS00613; CNS00614; CNS00749; CNS00746; CNS00554; CNS00741); NC: (double-distilled water) negative control without the addition of DNA template.
