

Supplemental figures of ncRNA structures identified in the genome of OA G20.

Supplemental\_Figure\_S2: Glycine riboswitch (A: OA G20, B: Rfam reference structure), FMN riboswitch (C: OA G20, D: Rfam reference structure), SAM-I riboswitch (E: OA G20, F: Rfam reference structure) and c-di-GMP riboswitch (G: OA G20, H: Rfam reference structure)
