Supplementary Table S1. Shapiro-Wilk normality test of alpha diversity data. p-value > 0.05 suggests that the data follows a normal distribution.

Site	Type	p-value			
		Observed	**Shannon**	**Simpson**	**Chao 1**
Bacteria	Soil	0.1327	0.1003	0.6295	0.000003914
Bacteria	Root	0.9795	0.4379	0.1274	0.1275
Fungi	Soil	0.1144	0.2122	0.01878	4.278e-06
Fungi	Root	0.03569	0.02782	0.6277	0.004117
