**Table S1.** Detailed of sites of swab collection categorized by office groups and Cleaning Personnel.

| Location/Responsible Personnel | | Cleaning Personnel Assigned |
|---|---|---|
| treatment room | dispenser near sink (used by patient) (n=2) | cleaning company |
| | light fixture (n=2) | cleaning company |
| | refrigerator handle (n=4) | cleaning company |
| | blood pressure monitor (n=4) | medical personnel |
| | chair armrest for patient (n=3) | medical personnel |
| | ECG cables - other (n=2) | medical personnel |
| | ECG limb leads (n=4) | medical personnel |
| | keyboard (n=4) | medical personnel |
| | CTG cables (n=2) | medical personnel |
| | mouse (n=4) | medical personnel |
| | patient chair armrest (n=4) | medical personnel |
| | spirometer (n=2) | medical personnel |
| | suction device handle (n=3) | medical personnel |
| | suction device switch (n=2) | medical personnel |
| | tourniquet (n=4) | medical personnel |
| | surgical table (n=2) | medical personnel |
| | blood collection table (n=3) | medical personnel |
| | operating table (n=2) | medical personnel |
| | cabinet with sterile packages (n=2) | medical personnel |
| | infant scale (n=4) | medical personnel |
| diagnostic office | gynecological chair (n=2) | medical personnel |
| | ultrasound probe/cable (n=1) | medical personnel |
| | ultrasound machine cables (n=1) | medical personnel |
| | ultrasound probes (n=2) | medical personnel |
| | X-ray wall (n=2) | medical personnel |
| | X-ray wall handle (n=2) | medical personnel |
| | ultrasound probe (n=1) | medical personnel |
| | gynecological chair (n=2) | medical personnel |
| other | dispenser (n=3) | cleaning company |
| | patient chair (mother and child room) (n=1) | cleaning company |
| | changing table (n=4) | cleaning company |
| | self-check-in kiosk (n=4) | cleaning company |
| | light switch (n=2) | cleaning company |

**Table S2.** Identified strains and their quantities categorized by growth.

| Strains | None + Stingy (n=55) | Moderate + Abundant (n=30) |
|---|---|---|
| *Moraxella catarrhalis* | 0 | 1 (3,33%) |
| *Enterobacter cloacae* | 0 | 1 (3,33%) |
| *Pantoea septica* | 0 | 1 (3,33%) |
| *Rhizobium radiobacter* | 0 | 1 (3,33%) |
| *Lysinibacillus fusiformis* | 0 | 1 (3,33%) |
| *Paracoccus yeei* | 0 | 1 (3,33%) |
| *Corynebacterium lipophiloflavum* | 0 | 1 (3,33%) |
| *Erwinia sp* | 0 | 1 (3,33%) |
| *Chryseobacterium gleum* | 0 | 1 (3,33%) |

| | | |
|---|---|---|
| *Roseomonas mucosa* | 0 | 1 (3,33%) |
| *Pseudomonas luteola* | 0 | 1 (3,33%) |
| *Pseudomonas stutzeri* | 0 | 1 (3,33%) |
| *Bacillus mycoides* | 0 | 1 (3,33%) |
| *Staphylococcus aureus* | 0 | 1 (3,33%) |
| *Staphylococcus lugdunensis* | 0 | 1 (3,33%) |
| *Bacillus pumilus* | 1 (1,82%) | 1 (3,33%) |
| *Staphylococcus haemolyticus* | 3 (5,45%)%) | 1 (3,33%) |
| *Bacillus altitudinis* | 2 (3,64%) | 2 (6,67%) |
| *Staphylococcus capitis* | 2 (3,64%) | 2 (6,67%) |
| *Kocuria rhizophila* | 1 (1,82%) | 4 (13,33%) |
| *Bacillus licheniformis* | 3 (5,45%) | 4 (13,33%) |
| *Staphylococcus warneri* | 10 (18,18%) | 5 (16,67%) |
| *Staphylococcus hominis* | 18 (32,73%) | 9 (30,00%) |
| *Bacillus cereus* | 8 (14,55%) | 11 (36,67%) |
| *Staphylococcus epidermidis* | 11 (20,00%) | 11 (36,67%) |
| *Micrococcus luteus* | 26 (47,27%) | 21 (70,00%) |
