

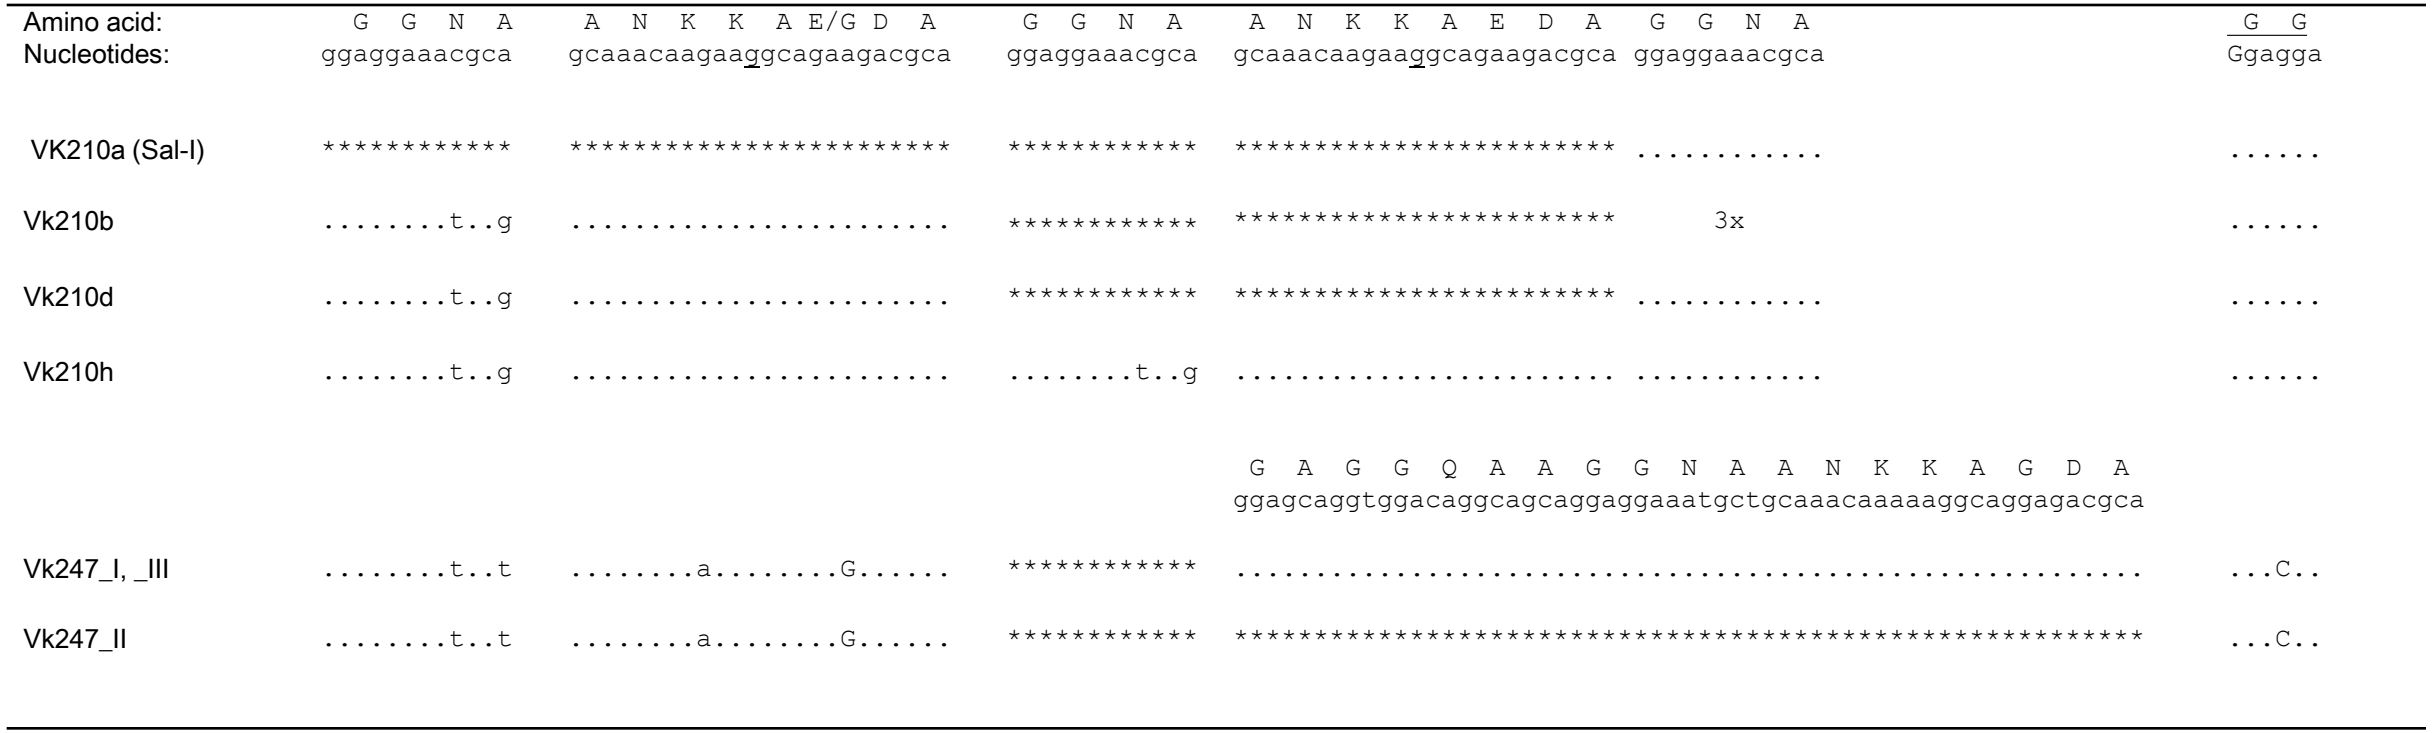

Figure S3B. *Pvcsp* nucleotide and amino acid carboxyl variable terminus in isolates from Mexico. Comparison of polymorphism between VK210h, VK210b and VK210d, and between VK247_I and _II. As reference VK210a (Sal-I, XM001614511.1), VK210b (Mxch4, JQ511267.1), VK210d (Mxch14, KF437876.1) and VK247_I (Mxch6, JQ511270.1) were used.
