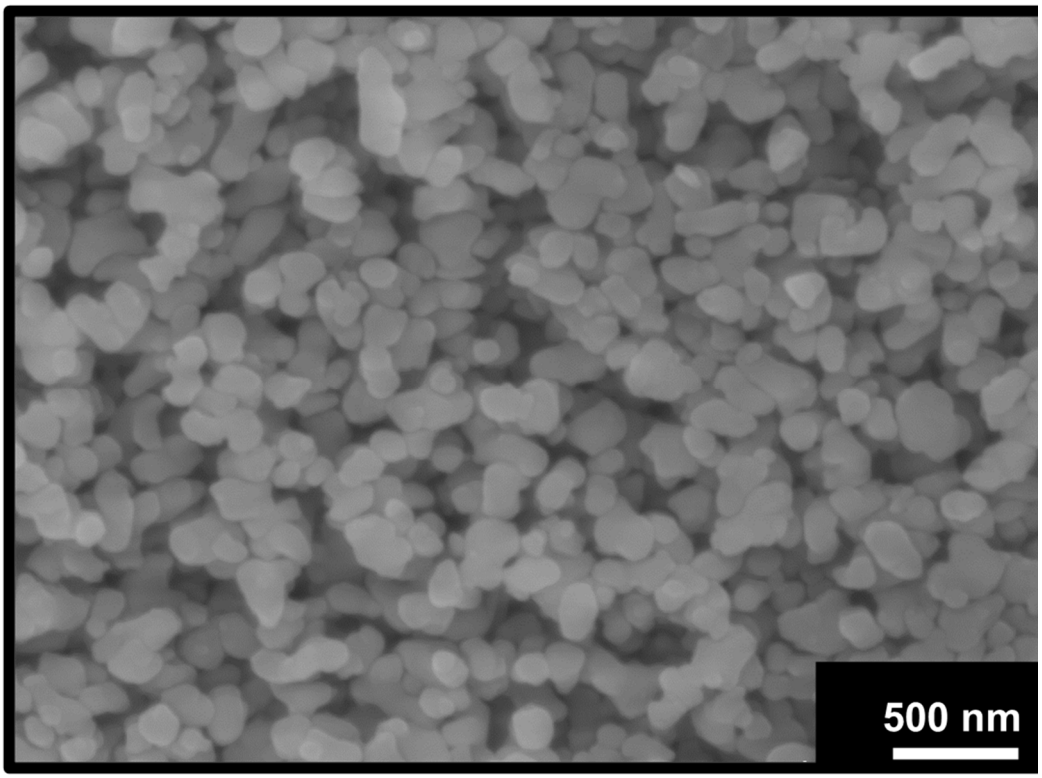

Figure S1. SEM image of an Al_2O_3 core region of a Al_2O_3–hBN CS composites granule indicating the presence of only Al_2O_3 particles.

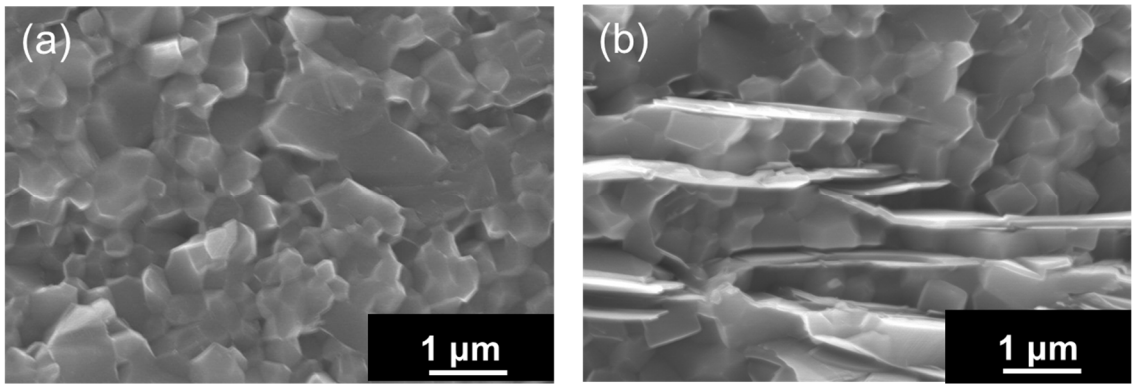

Figure S2. SEM images indicating the sintering of Al_2O_3 particles at the (a) Al_2O_3 core and (b) Al_2O_3–hBN composite shell regions.

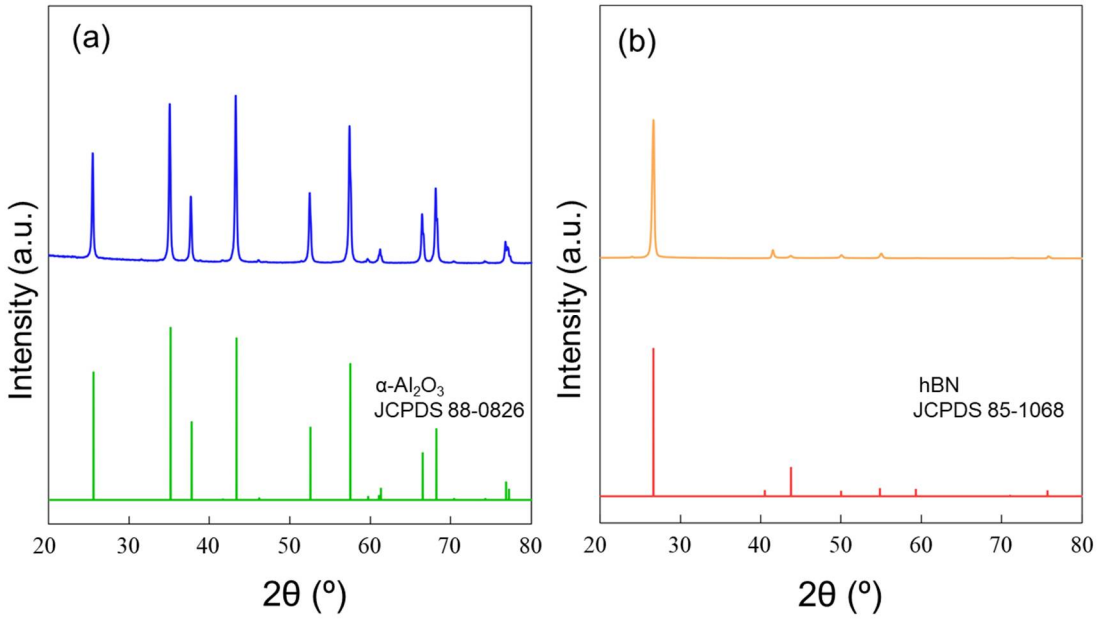

Figure S3. XRD patterns of the raw powders used. (a) Al_2O_3 particles and (b) hBN sheets.
