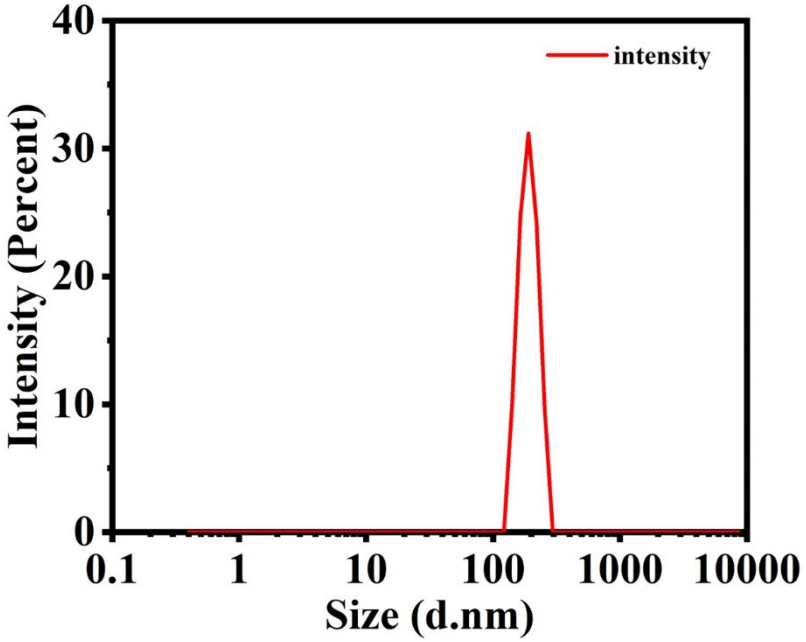

Figure S1. Particle size distribution of chitosan nanoparticles loaded with GA

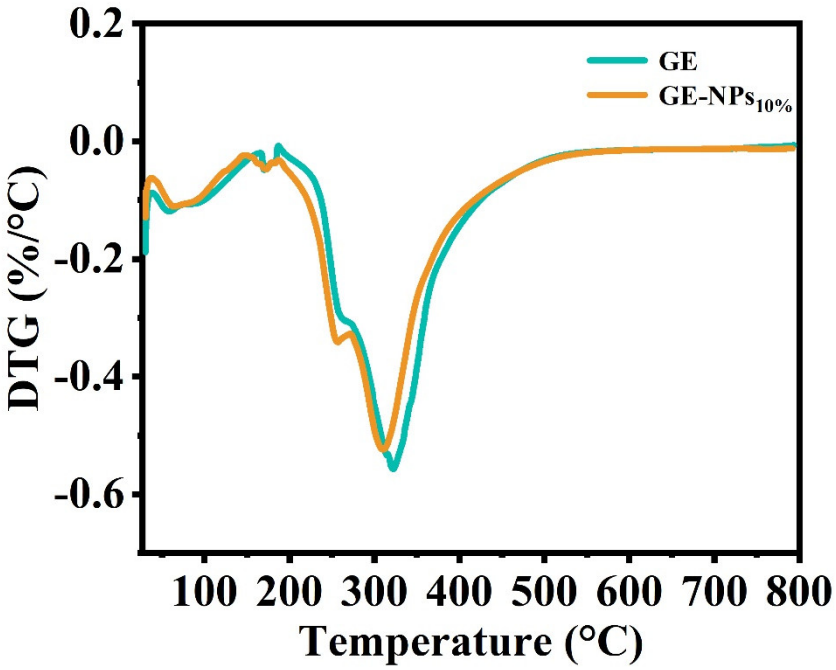

Figure S2. DTG spectrum of GE coating and GE-NPs10% coating

Table S1. Thermal degradation temperatures (Tpeak, °C) and weight loss (△W, %) of GE coating and GE-NPs10% coating

Sample	△1		△2		△3		Residue (%)
	Tpeak	△W1	Tpeak	△W2	Tpeak	△W3	
GE	55	13.5	262	12.2	322	51.3	18.8
GE-NPs10%	60	10.6	256	18.9	307	45	20.9

△1, △2 and △3 denote the first, second and third stage weight loss, respectively, of coating during heating scan.
