

Questionnaire to evaluate the knowledge of low PHE diet

Psychometric Tables: Percentile Score and Standard (S)-Scores

You can obtain an S-Score for factors 1, 2 and 3 with the brief questionnaire. If the subject answered the second part of the questionnaire, it is also possible to calculate a percentile score. The total raw score used to calculate the percentile score is the sum of the total points of the three factors plus the total points obtained from the Allowed and Forbidden/Limited Foods.

Total Raw Score "General Knowledge PKU Diet"=Total points factor 1+Total points factor 2+Total points factor 3+Total points Allowed food + Total points Limited/Forbidden food.

Description of values obtained in the percentile score and S-Scores:

	Very low level of knowledge
	Low level of knowledge
	Medium of knowledge
	High of knowledge

Total Raw Score	S-Score				Percentile		Total Raw Score
	Factor 1 Allowed food	Factor 2 Forbidden foods, easy to recognize	Factor 3 Forbidden foods, NOT easy to recognize		GENERAL KNOWLEDGE PKU DIET		
0	30	0	15		1		0
1	35	0	20		1		1
2	40	0	30		1		2
3	45	10	35		1		3
4	50	20	40		1		4
5	55	30	50		1		5
6	60	40	55		1		6
7	65	50	60		1		7
8	70	60	65		2		8
9	75	75	70		2		9
10	80	85	80		3		10
11	83		90		3		11
12	90				3		12
13	93				4		13
14	97				4		14
15	100				5		15
30					5		30
33					10		33
35					15		35
38					20		38
