HEI-2015. Healthy index; DASH. Dietary Approaches to Stop Hypertension; aDASH. Alternate Dietary Approaches to Stop Hypertension. Two-way ANOVA analysis: S: differences according to sex; I: differences according to IR score; I: interaction between sex and IR. Differences between IR and non-IR within the same sex group (Student's t test or U de Mann-Whitney test depend the distribution of the variable): \*p<0.05, \*\* p<0.01
