## Supplementary Figures

Figure S1. Binding pockets and Docking of 1-PPA and AZ8838. (**a**) *wt*PAR2 model of the transmembrane domain (Val61-Arg362) in white. Surface with charges-based coloring (red: negatively charged regions, blue: positively charged region); (**b**) Zoom of the biggest pockets showing the overlay of the docking analysis with 1-PPA (in purple); (**c**) Zoom on the orthosteric pocket showing the overlay of 1-PPA (purple) with AZ8838 (green).
