Supplemental data

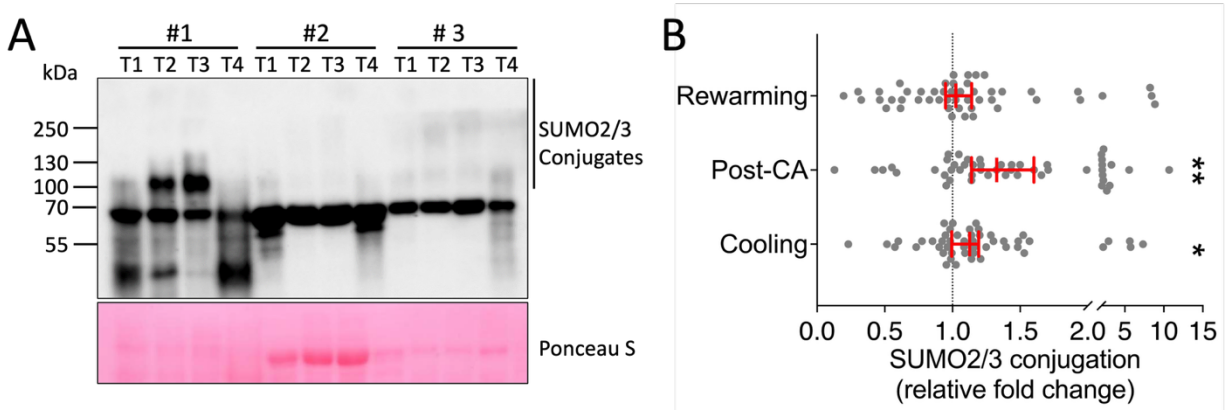

Figure S1. Western blot analysis of SUMOylation in patient samples (Supplemental to Fig. 1). A) Representative Western blot showing samples from 3 individual patients. **B**) Quantification of SUMOylation levels in leukocytes enriched from blood samples of 49 patients. Data are presented as median values with 95% confidence intervals; each dot represents an individual sample. *, $p < 0.05$; **, $p < 0.01$.
