Contents:

Figure S1. Representative flow cytometry analysis of murine lymphocytes

Figure S2. Representative flow cytometry FSC-SSC dot plot.

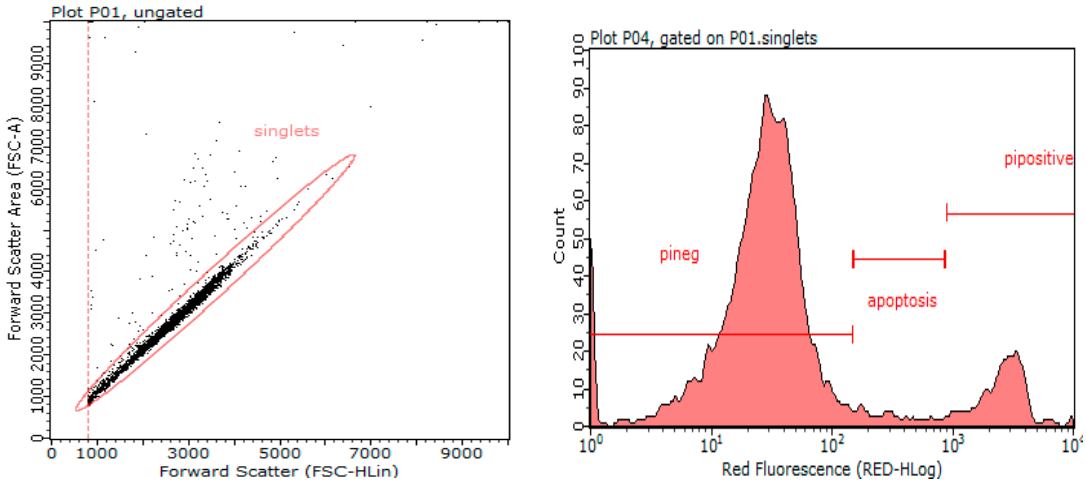

Figure S1:

Representative flow cytometry analysis of murine lymphocytes: (A) dot plot showing the singlet gating in FSC-A:FSC-H to exclude doublets; (B) histogram showing the viability threshold applied to singlets through PI assay.

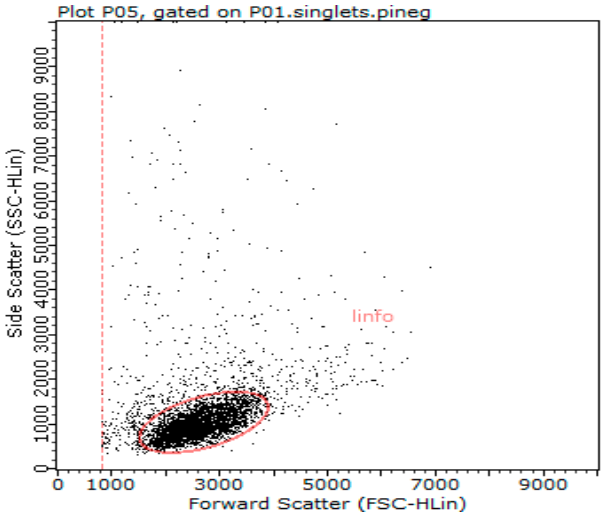

Figure S2:

Representative flow cytometry FSC-SSC dot plot showing MLN lymphocytes gated as events defined by FSC low: SSC low.
