

**Vanilla beyond *Vanilla planifolia* and *Vanilla x tahitensis*: taxonomy and historical notes, reproductive biology and metabolites**

Renatha Tavares de Oliveira<sup>1</sup>, Joana Paula da Silva Oliveira<sup>1</sup>, Andrea Furtado Macedo<sup>1</sup>

1 - Integrated Laboratory of Plant Biology (LIBV), Institute of Biosciences, Federal University of the State of Rio de Janeiro

**Supplementary Table S1.** Metabolites identified from vanilla crop wild relatives and/or non-commercial vanilla species, following the alphabetical order of direct parent classes.

| Metabolite                    | Species      | Methods          | Flavor DB descriptors   | CID<br>(PubChem) | Direct parent                            |
|-------------------------------|--------------|------------------|---|------------------|--|
| 2,3-butanediol                | 10c          | GC-MS            | onion, fruit, creamy, fruity, buttery                         | 262              | 1,2-diols                                |
| phenol                        | 8h, 15h, 10c | GC-MS, GC-O      | phenol, plastic, rubber, phenolic                             | 996              | 1-hydroxy-4-unsubstituted benzenoids     |
| 2,3-dihydroxypropyl acetate   | 8h           | DTD-GC-MS        |   | 33510            | 1-monoacylglycerols                      |
| homoeriodictyol               | 1a, 2a       | UHPLC-MS/MS      | bitter  | 73635            | 3'-O-methylated flavonoids               |
| viridiflorol                  | 10c          | GC-MS            |   | 11996452         | 5,10-cycloaromadendrane sesquiterpenoids |
| alpinumisoflavone             | 1a, 2a       | UHPLC-MS/MS      |   | 5490139          | 6-prenylated isoflavanones               |
| bletilol A                    | 1a, 2a       | UHPLC-MS/MS      |   | 102121477        | 7-O-methylated isoflavanoids             |
| nevadensin                    | 1a, 2a       | UHPLC-MS/MS      | if glucoside can be sweet-like                                | 160921           | 8-O-methylated flavonoids                |
| 3-hydroxypropyl prop-2-enoate | 15h          | DTD-GC-MS        |   | 33101            | Acrylic acid esters                      |
| methyl acrylate               | 8h, 10c, 15h | DTD-GC-MS, GC-MS |   | 7294             | Acrylic acid esters                      |
| cis-beta-ocimene              | 16i          | GC-MS            |   | 5320250          | Acyclic monoterpenoids                   |
| geranylacetone                | 10c          | GC-O             | magnolia, rose, fresh, floral, aldehydic, fruity, leaf, green | 1549778          | Acyclic monoterpenoids                   |
| linalool                      | 16i          | GC-MS            |   | 6549             | Acyclic monoterpenoids                   |
| myrcene                       | 16i          | GC-MS            |   | 31253            | Acyclic monoterpenoids                   |

|                            |              |           |  |       |                         |
|----------------------------|--------------|-----------|--|-------|-------------------------|
| 3-hydroxy-2-pentanone      | 10c          | GC-MS     | truffle, herbal, herb                                      | 62484 | Acyloins                |
| 3-hydroxybutan-2-one       | 15h          | DTD-GC-MS | butter, cream, milky, fatty, creamy, sweet, dairy, buttery | 179   | Acyloins                |
| alanine                    | 5d, 11d, 13d | NMR       |  | 5950  | Alanine and derivatives |
| docosane                   | 8h, 15h, 10c | GC-MS     | alkane, waxy   | 12405 | Alkanes                 |
| dodecane                   | 10c          | GC-MS     | alkane   | 8182  | Alkanes                 |
| eicosane                   | 10c          | GC-MS     | alkane, waxy   | 8222  | Alkanes                 |
| hentriacontane             | 15h          | DTD-GC-MS |  | 12410 | Alkanes                 |
| heptacosane                | 8h, 15h, 10c | GC-MS     |  | 11636 | Alkanes                 |
| heptadecane                | 10c          | GC-MS     | alkane   | 12398 | Alkanes                 |
| heptane                    | 10c          | GC-MS     | alkane, ethereal, sweet                                    | 8900  | Alkanes                 |
| hexacosane                 | 8h, 15h      | DTD-GC-MS |  | 12407 | Alkanes                 |
| hexadecane                 | 10c          | GC-MS     | alkane   | 11006 | Alkanes                 |
| nonacosane                 | 8h, 15h      | DTD-GC-MS |  | 12409 | Alkanes                 |
| pentacosane                | 8h, 15h, 10c | GC-MS     |  | 12406 | Alkanes                 |
| pentadecane                | 10c          | GC-MS     | alkane, waxy   | 12391 | Alkanes                 |
| tetracosane                | 8h, 15h, 10c | GC-MS     |  | 12592 | Alkanes                 |
| tetradecane                | 10c          | GC-MS     | alkane, waxy, mild   | 12389 | Alkanes                 |
| tricosane                  | 8h, 15h, 10c | GC-MS     | alkane, waxy   | 12534 | Alkanes                 |
| tridecane                  | 10c          | GC-MS     | alkane   | 12388 | Alkanes                 |
| undecane                   | 10c          | GC-MS     | alkane   | 14257 | Alkanes                 |
| 2,4-dihydroxy-acetophenone | 15h          | DTD-GC-MS |  | 6990  | Alkyl-phenylketones     |

|                            |                      |                             |   |       |  |
|----------------------------|----------------------|-----------------------------|---|-------|--|
| acetovanillone             | 1a, 2a, 15h, 10c     | GC-MS, UHPLC-MS/MS,<br>GC-O | vanilla, sweet, vanillin, faint                                       | 2214  | Alkyl-phenylketones                    |
| o-acetyl-p-cresol          | 15h                  | DTD-GC-MS                   | floral, heavy, sweet, herbal  | 15068 | Alkyl-phenylketones                    |
| propiophenone              | 10c                  | GC-MS                       | lilac, hawthorn   | 7148  | Alkyl-phenylketones                    |
