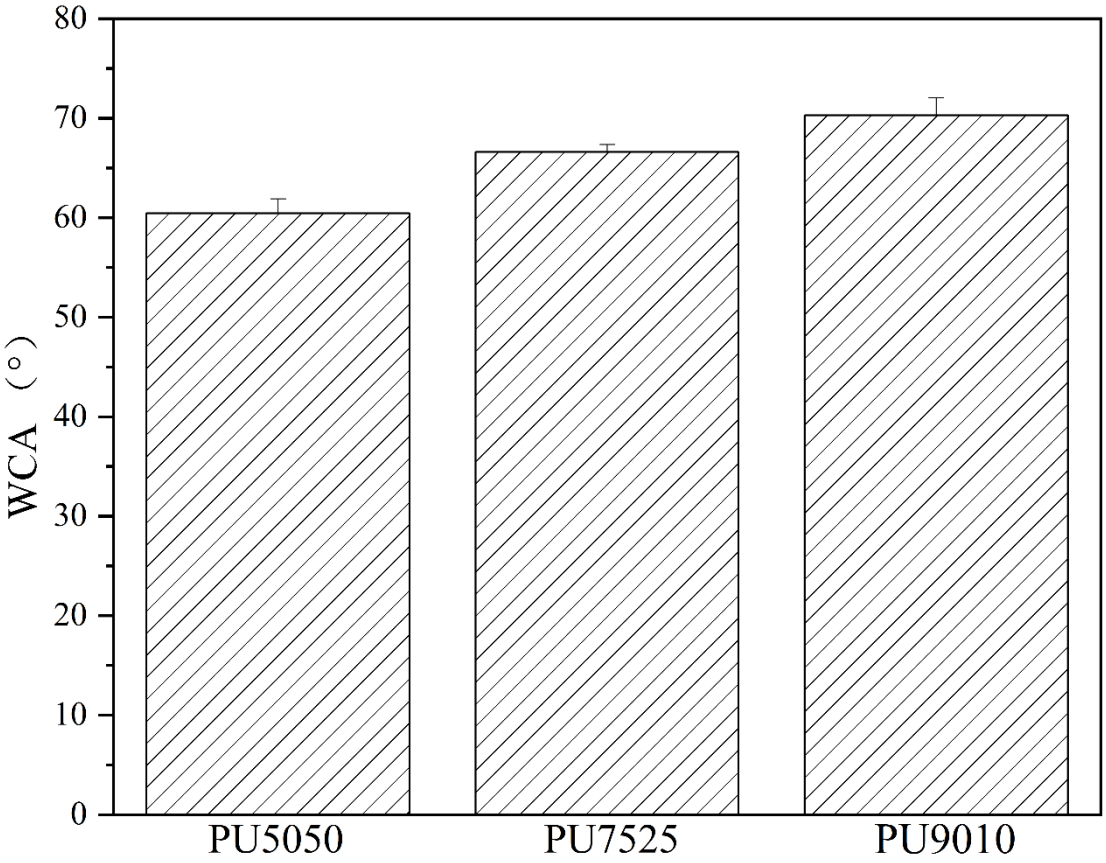

Figure S1. Water contact Angle of waterborne polyurethane films.

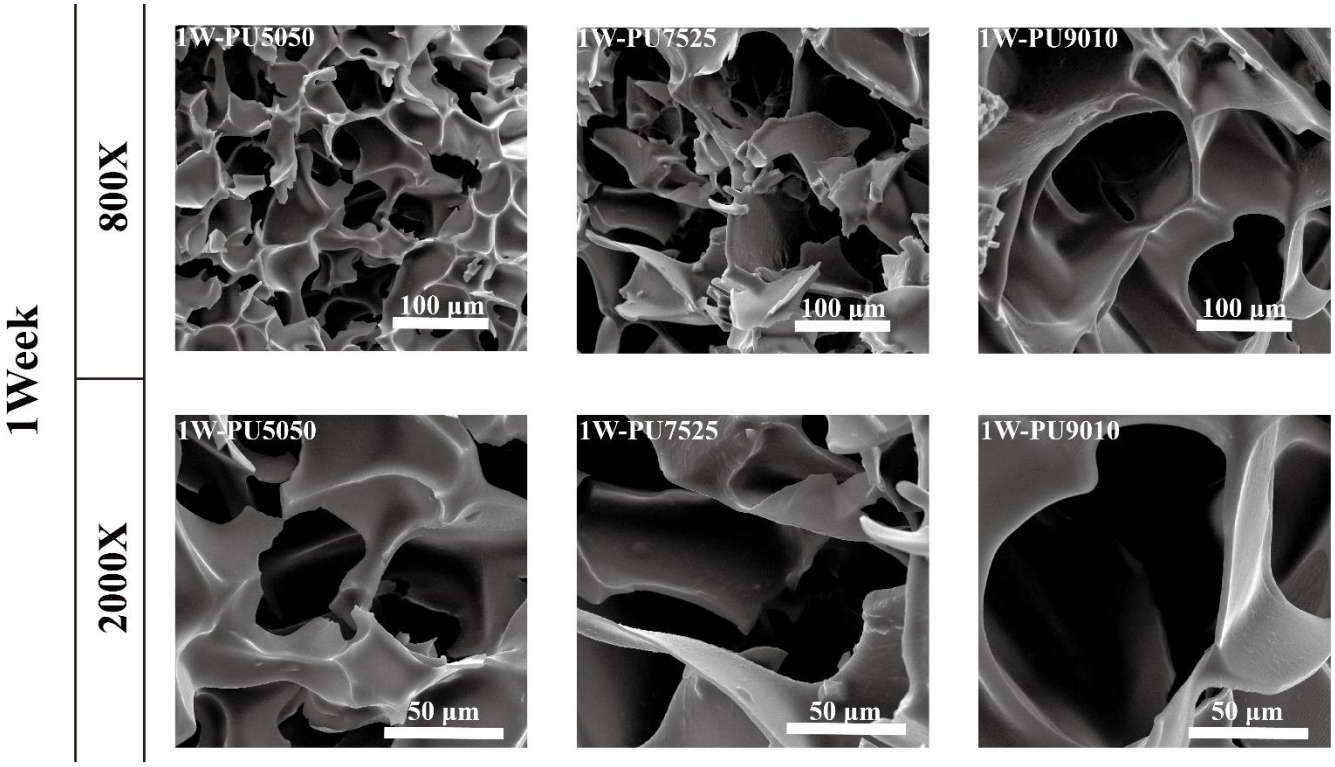

Figure S2. The WPU scaffolds' morphology of hydrolyzing 1 week.

Table S1. Details of the instruments used in this work.

Instrument	Specification	Manufacturer	Error and tolerance
Electronic balance	CP213	Ohaus Instrument Co., LTD, Shanghai	0.01 g
Electric heating constant temperature blast oven	DZG-9140A	Qixin Scientific Instrument Co., LTD., Shanghai	
Rotary evaporator	SHB-Ⅲ	Huicheng Technology & Trade Co. LTD, Zhengzhou	
Pipetting gun	Finnpipette F3	Thermo Fisher Scientific, CN	1μL
Freeze-dryer	Pilot10-15M	Biocool, Beijing	
Fourier transform infrared spectroscopy	iS50 FT-IR	NICOLET, Thermo Scientific, America	
Scanning electron microscopy	Nova Nano SEM 450	FEI Company, America	
Universal tensile tester	HZ-1004	Lixian Instrument Scientific Co., Ltd, Dongguan	0.1 N
Water contact angle	DSA100	KRUSS, China	0.1°
Cell incubator	Forma™ Steri-Cycle™ CO_2 Incubator, 184 L, Polished Stainless Steel	Thermo Fisher Scientific，CN	
Ultrapure water machine	NPTK-4G	Youpu Ultra Pure Technology Co., LTD, Sichuan
