Supplementary methods

The supplementary includes the following contents:

1. Figure S1. The distribution of 722 meteorological stations.

2. Figure S2. Relationship between MOD17A3 NPP and BIOME-BGC NPP(a), LUE NPP estimation(b).

3. Figure S3. Spatial patterns and trends of driving factors.

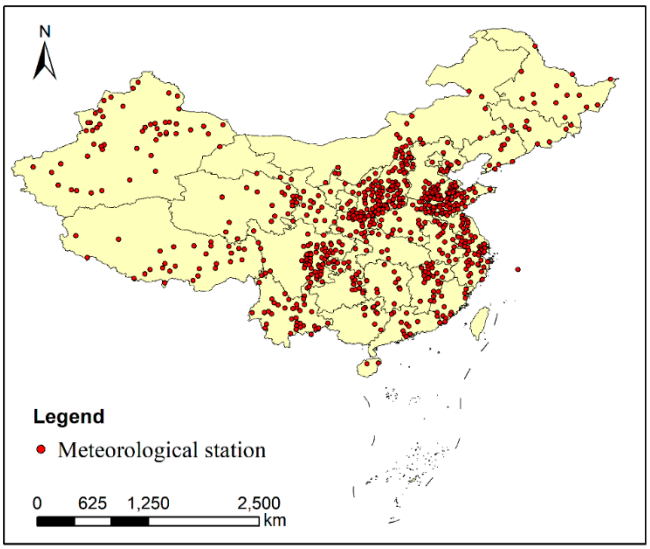

Figure S1. The distribution of 722 meteorological stations.

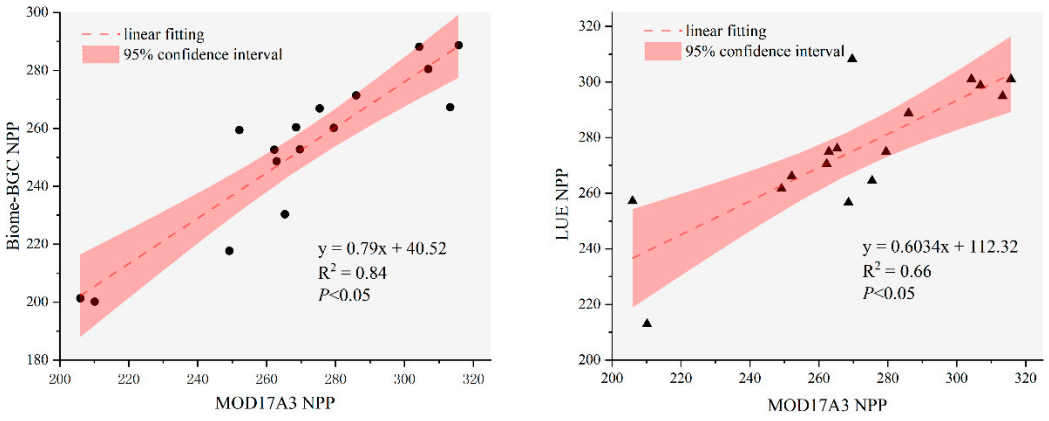

Figure S2. Relationship between MOD17A3 NPP and BIOME-BGC NPP, LUE NPP estimation.

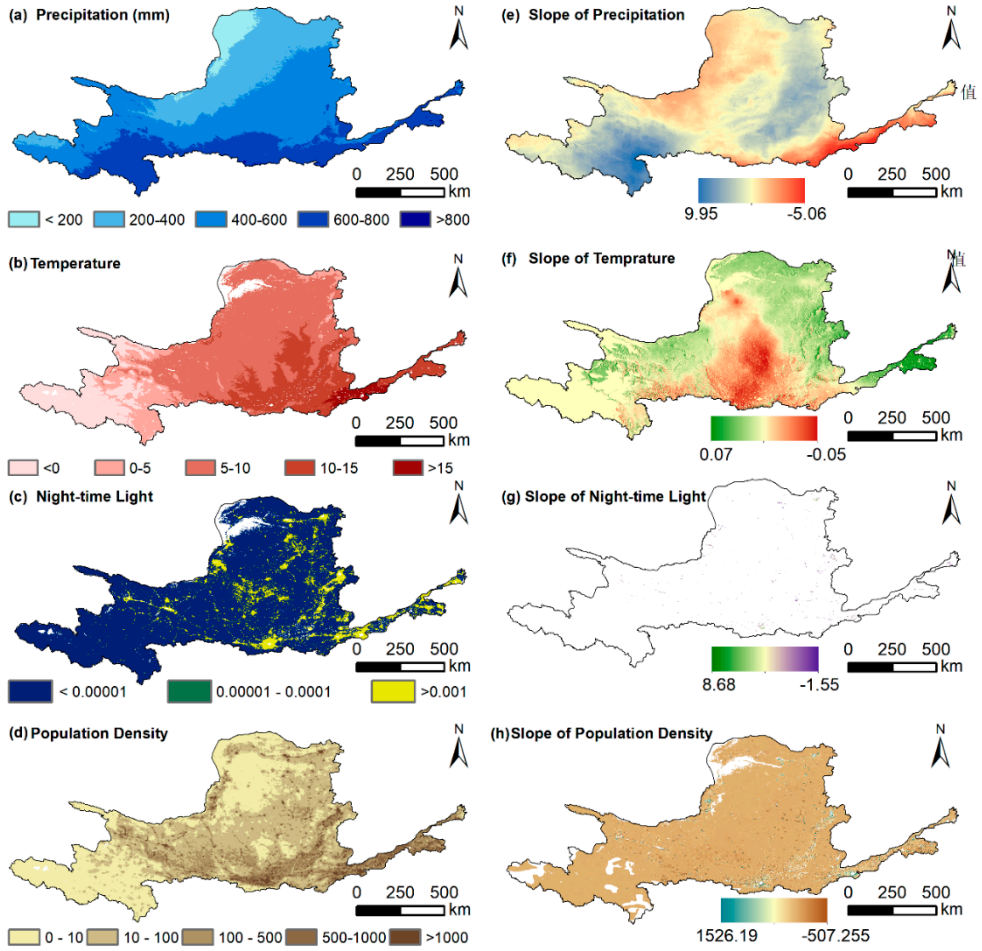

Figure S3. Spatial patterns and trends of driving factors.
