four times and more <sup>*</sup>	16 (41.03)	10 (25.64)	5 (12.82)	8 (20.51)	----	39 (26.90)
Total <sup>+</sup>	53 (36.55)	54 (37.24)	21 (14.48)	14 (9.66)	3 (2.07)	145 (100)

Data are expressed as: <sup>\*</sup> – (% in a given group), <sup>+</sup> – n (% of all responses);

es – effect size, \* statistical significance; 1 - very important, 2 - important,

3 - indifferent, 4 - not very important, 5 - completely unimportant

Table S26: Respondents' attitude to nature and ecology, taking into account the place of residence

Place of residence	1	2	3	4	5	Total <sup>+</sup>
p = 0.237 es = 0.09						
own flat/ house <sup>*</sup>	27 (44.26)	20 (32.79)	7 (11.48)	7 (11.48)	----	61 (42.07)
with parents <sup>*</sup>	24 (32.43)	30 (40.54)	10 (13.51)	7 (9.46)	3 (4.05)	74 (51.03)
dormitory/boarding house <sup>*</sup>	1 (12.50)	3 (37.50)	4 (50.00)	----	----	8 (5.52)
school boarding house	1 (50.00)	1 (50.00)	----	----	----	2 (1.38)
Total <sup>+</sup>	53 (36.55)	54 (37.24)	21 (14.48)	14 (9.66)	3 (2.07)	145 (100)

Data are expressed as: <sup>\*</sup> – (% in a given group), <sup>+</sup> – n (% of all responses);

es – effect size, \* statistical significance; 1 - very important, 2 - important,

3 - indifferent, 4 - not very important, 5 - completely unimportant
