

Considering the characteristics of a sustainable and healthy city, indicate your perception of each of the characteristics below and mark the most appropriate option.		Very relevant	Relevant	Indifferent	Irrelevant	Very Irrelevant
Indicator	Social Indicator					
Sub-indicator	Access to farmers' market					
Sub-indicator	Access to high-quality education					
Sub-indicator	Access to housing					
Sub-indicator	Informal settlement area					
Sub-indicator	Defending against the impact of natural and man-made disasters					
Sub-indicator	Population density					
Sub-indicator	Social Equity					
Sub-indicator	Employment structure					
Sub-indicator	Life expectancy					
Sub-indicator	Preservation of Cultural Identity					
Sub-indicator	General price index to the consumer					
Sub-indicator	Knowledge infrastructure					
Sub-indicator	Population education					
Sub-indicator	Income level					
Sub-indicator	Community Project					

Sub-indicator	The average salary of employed staff and workers					
Sub-indicator	Overcrowding of families					
Sub-indicator	Unemployment rate					
Sub-indicator	Child mortality rate					
Sub-indicator	Accident mortality rate					
Sub-indicator	The natural population growth rate					
Sub-indicator	Urban vulnerability					
Sub-indicator	Total Internet penetration					
Sub-indicator	Municipal services assistance					
Indicator	Economic Indicator					
Sub-indicator	Market attractiveness					
Sub-indicator	Economic development					
Sub-indicator	Gross Domestic Product (GDP)					
Sub-indicator	Gini Index					
Sub-indicator	Business parks					
Sub-indicator	GDP per capita					
Sub-indicator	Contingent Plan					

Sub-indicator	The proportion of primary industry					
Sub-indicator	The proportion of secondary industry					
Sub-indicator	The proportion of tertiary industry					
Sub-indicator	The proportion of expenses with science and technology					
Sub-indicator	The proportion of education expenses					
Sub-indicator	The proportion between available annual urban family income and rural family income					
Sub-indicator	Economic reserves					
Sub-indicator	Market size					
Sub-indicator	The regional revenue growth rate					
Sub-indicator	GDP growth rate per capita					
Sub-indicator	Export rate to GDP					
Sub-indicator	Foreign investment rate in relation to GDP					
Indicator	Environmental Indicator					
Sub-indicator	The proportion of investment in environmental protection in relation to GDP					
Sub-indicator	Per capita green area					
Sub-indicator	The proportion of urban areas					
Sub-indicator	Solid waste emissions					

Sub-indicator	Total main pollutant emissions					
Sub-indicator	Ecological footprint					
Sub-indicator	Proportion of treated consumer waste					
Sub-indicator	Quality of urban life					
Sub-indicator	Soil quality					
Sub-indicator	Preservation of biodiversity					
Sub-indicator	Green coverage ratio of built areas					
Sub-indicator	Forest coverage rate					
Sub-indicator	Household waste treatment fee					
SDG 01	I consider the eradication of poverty in my city an important activity.					
SDG 02	I consider the use of sustainable agriculture and the eradication of poverty important factors for a city
