PRISMA 2020 Checklist

Section and Topic	Item #	Checklist item	Location where item is reported
TITLE			
Title	1	Identify the report as a systematic review.	Title, Page 1 (Lines 3–4)
ABSTRACT			
Abstract	2	See the PRISMA 2020 for Abstracts checklist.	Abstract, Page 1 (Lines 26–46)
INTRODUCTION			
Rationale	3	Describe the rationale for the review in the context of existing knowledge.	Section 1 (Introduction), Pages 2–3 (Lines 59–99)
Objectives	4	Provide an explicit statement of the objective(s) or question(s) the review addresses.	Section 1 (Introduction), Page 3 (Lines 99–107)
METHODS			
Eligibility criteria	5	Specify the inclusion and exclusion criteria for the review and how studies were grouped for the syntheses.	Section 2.2, Page 4 (Lines 117–136)
Information sources	6	Specify all databases, registers, websites, organisations, reference lists and other sources searched or consulted to identify studies. Specify the date when each source was last searched or consulted.	Section 2.3, Page 4 (Lines 137–148); Abstract (Search cut-off: May 2026)
Search strategy	7	Present the full search strategies for all databases, registers and websites, including any filters and limits used.	Section 2.3, Page 4 (Lines 137–148)
Selection process	8	Specify the methods used to decide whether a study met the inclusion criteria of the review, including how many reviewers screened each record and each report retrieved, whether they worked independently, and if applicable, details of automation tools used in the process.	Section 2.4, Page 4 (Lines 149–154)
Data collection process	9	Specify the methods used to collect data from reports, including how many reviewers collected data from each report, whether they worked independently, any processes for obtaining or confirming data from study investigators, and if applicable, details of automation tools used in the process.	Section 2.4, Pages 4–5 (Lines 154–159)
Data items	10a	List and define all outcomes for which data were sought. Specify whether all results that were compatible with each outcome domain in each study were sought (e.g. for all measures, time points, analyses), and if not, the methods used to decide which results to collect.	Section 2.2, Page 4 (Lines 128–133)
	10b	List and define all other variables for which data were sought (e.g. participant and intervention characteristics, funding sources). Describe any assumptions made about any missing or unclear information.	Section 2.4, Pages 4–5 (Lines 155–165)
Study risk of bias assessment	11	Specify the methods used to assess risk of bias in the included studies, including details of the tool(s) used, how many reviewers assessed each study and whether they worked independently, and if applicable, details of automation tools used in the process.	Section 2.5, Page 5 (Lines 166–172)
Effect measures	12	Specify for each outcome the effect measure(s) (e.g. risk ratio, mean difference) used in the synthesis or presentation of results.	Section 2.6, Page 5 (Lines 181–184)
Synthesis methods	13a	Describe the processes used to decide which studies were eligible for each synthesis (e.g. tabulating the study intervention characteristics and comparing against the planned groups for each synthesis (item #5)).	Section 2.6, Page 5 (Lines 185–203); Section 2.2
	13b	Describe any methods required to prepare the data for presentation or synthesis, such as handling of missing summary statistics, or data conversions.	Section 2.6, Page 5 (Lines 185–190)
	13c	Describe any methods used to tabulate or visually display results of individual studies and syntheses.	Section 2.6, Page 5 (Lines 200–203)
	13d	Describe any methods used to synthesize results and provide a rationale for the choice(s). If meta-analysis was performed, describe the model(s), method(s) to identify the presence and extent of statistical	Section 2.6, Page 5 (Lines 177–193)

Section and Topic	Item #	Checklist item	Location where item is reported
		heterogeneity, and software package(s) used.	
	13e	Describe any methods used to explore possible causes of heterogeneity among study results (e.g. subgroup analysis, meta-regression).	Section 2.6, Page 5 (Lines 193–199)
	13f	Describe any sensitivity analyses conducted to assess robustness of the synthesized results.	Section 2.6, Page 5 (Lines 198–203)
Reporting bias assessment	14	Describe any methods used to assess risk of bias due to missing results in a synthesis (arising from reporting biases).	Section 2.6, Pages 5–6 (Lines 204–209)
Certainty assessment	15	Describe any methods used to assess certainty (or confidence) in the body of evidence for an outcome.	Section 2.5, Page 5 (Lines 172–176)
RESULTS			
Study selection	16a	Describe the results of the search and selection process, from the number of records identified in the search to the number of studies included in the review, ideally using a flow diagram.	Section 3.1, Page 6 (Lines 211–227); Figure 1, Page 7
	16b	Cite studies that might appear to meet the inclusion criteria, but which were excluded, and explain why they were excluded.	Section 3.1, Page 6 (Lines 214–224)
Study characteristics	17	Cite each included study and present its characteristics.	Section 3.2, Pages 7–10 (Lines 230–277); Table 1
Risk of bias in studies	18	Present assessments of risk of bias for each included study.	Section 3.3, Pages 10–12 (Lines 278–310); Figures 2–3
Results of individual studies	19	For all outcomes, present, for each study: (a) summary statistics for each group (where appropriate) and (b) an effect estimate and its precision (e.g. confidence/credible interval), ideally using structured tables or plots.	Sections 3.4 & 3.7, Pages 12–16 (Forest plots: Figures 4–5, 7–9)
Results of syntheses	20a	For each synthesis, briefly summarise the characteristics and risk of bias among contributing studies.	Sections 3.4–3.7 & 3.9, Table 2 (Pages 12–18)
	20b	Present results of all statistical syntheses conducted. If meta-analysis was done, present for each the summary estimate and its precision (e.g. confidence/credible interval) and measures of statistical heterogeneity. If comparing groups, describe the direction of the effect.	Sections 3.4 & 3.7, Pages 12–16 (Figures 4–5, 7–9)
	20c	Present results of all investigations of possible causes of heterogeneity among study results.	Sections 3.5 & 3.6, Pages 14–15 (Lines 341–380); Figure 6
	20d	Present results of all sensitivity analyses conducted to assess the robustness of the synthesized results.	Section 3.8, Pages 16–17 (Lines 421–441)
Reporting biases	21	Present assessments of risk of bias due to missing results (arising from reporting biases) for each synthesis assessed.	Section 3.8, Page 17 (Lines 441–451)
Certainty of evidence	22	Present assessments of certainty (or confidence) in the body of evidence for each outcome assessed.	Section 3.9, Pages 17–18 (Lines 452–491); Table 2
DISCUSSION			
Discussion	23a	Provide a general interpretation of the results in the context of other evidence.	Section 4, Pages 18–20 (Lines 492–581)
	23b	Discuss any limitations of the evidence included in the review.	Section 4, Pages 20–21 (Lines 582–614)
	23c	Discuss any limitations of the review processes used.	Section 4, Page 21 (Lines 615–629)
	23d	Discuss implications of the results for practice, policy, and future research.	Section 5 (Conclusions), Page 21 (Lines 630–641)
OTHER INFORMATION			

Section and Topic	Item #	Checklist item	Location where item is reported
Registration and protocol	24a	Provide registration information for the review, including register name and registration number, or state that the review was not registered.	Section 2.1, Page 4 (Lines 113–115)
	24b	Indicate where the review protocol can be accessed, or state that a protocol was not prepared.	Section 2.1, Page 4 (Lines 113–115)
	24c	Describe and explain any amendments to information provided at registration or in the protocol.	Section 2.6, Page 5 (Lines 196–199)
Support	25	Describe sources of financial or non-financial support for the review, and the role of the funders or sponsors in the review.	Funding section, Page 22 (Line 653)
Competing interests	26	Declare any competing interests of review authors.	Conflicts of Interest section, Page 22 (Line 660)
Availability of data, code and other materials	27	Report which of the following are publicly available and where they can be found: template data collection forms; data extracted from included studies; data used for all analyses; analytic code; any other materials used in the review.	Data Availability Statement, Page 22 (Lines 656–659); Supplementary Materials, Page 21 (Lines 642–646)
