In June 2019, the International Symposium on Atomic Structure and Oscillator Strengths for Fusion and Astrophysical Plasma Research (ASOS) held the 13th edition of this series. ASOS originated at the University of Lund, Sweden in 1983, and this was the first time that it was held outside of Europe and the Americas. The meeting participants were a mixed international group from Europe, the Americas and Asia. This book represents a flavor of presentations made by internationally renowned experts, in a variety of fields relevant to the ASOS community. The book contains a special contribution entitled “Charlotte Froese Fischer—Her Work and Her Impact”, written and presented by Professor Alan Hibbert of The Queen’s University Belfast. The ASOS timing was chosen to overlap with Charlotte’s 90th birthday and a significant part of the meeting was a tribute to her work. The meeting ended with a hope to meet all the participants again in Paris in 2022.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

### **Open Access**

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

### **Author Focus**

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

### **High Quality & Rapid Publication**

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

### **High Visibility**

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), the Verzeichnis lieferbarer Bücher (VLB).

### **Print on Demand and Multiple Formats**

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
