

Special Issue

Artificial Intelligence and Natural Language Processing

Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Applications and Use Cases in the Field of NLP
- NLP for Low-Resource Languages
- Multilingual Speech and Language Processing
- Visualization in NLP
- Explainable AI in NLP Applications
- Deep Learning and Transformer-based Approaches for NLP
- Sentiment Analysis
- Question Answering
- Text Simplification
- Machine Translation
- Topic/Language Modeling
- NLP in Education
- Automatic Grading
- AI-based Tutoring Systems
- Natural Language-based Recommender Systems
- NLP for Social Good
- NLP to Detect and Reduce Bias
- NLP to Improve Lives and Mental Health
- NLP for Climate Change or Disaster Response
- NLP to Prevent Future Scandals of Conversational Bots

We look forward to receiving your contributions.

Guest Editors

Prof. Dr. Tim Schlippe

Professor of Artificial Intelligence, IU International University of Applied Sciences, 99084 Erfurt, Germany

Prof. Dr. Matthias Wölfel

Computer Science and Business Information Systems, Karlsruhe University of Applied Science, 76137 Karlsruhe, Germany

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Big Data and Cognitive Computing (BDCC) is a scholarly online journal which provides a platform for big data theories with emerging technologies on smart clouds and exploring supercomputers with new cognitive applications. It is a peer-reviewed, open access journal that publishes high quality original articles, reviews and short communications. The primary aims of this journal are to encourage contributions of high quality scientific papers relating to data management and analytics in industry, such as manufacturing, healthcare, education, media and business, data mining, and cognitive science. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Min Chen

School of Computer Science and Engineering, South China University of Technology, Guangzhou 510641, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, Inspec, Ei Compendex, and other databases.

Journal Rank:

JCR - Q1 (Computer Science, Theory and Methods) /
CiteScore - Q1 (Computer Science Applications)
