

Special Issue

Selected Papers from ICEER 2017: 2017 the 4th International Conference on Energy and Environment Research

Message from the Guest Editors

This Special Issue aims to contribute to the Sustainable Energy agenda through advanced scientific and multi-disciplinary knowledge, combined to improve renewable energy availability and control environmental pollution. We, therefore, invite papers on innovative technical developments, reviews, case studies, analytical, as well as assessments, from different disciplines, which are relevant to renewable and cleaner energy, and to environmental remediation and pollution control.

Keywords Energy and Environmental Engineering

- Bioenergy engineering technology
- Pollution control and waste treatment and Environmental bioprocesses
- Clean energy and chemical engineering technology

Materials Engineering

- Materials synthesis and characterization
- Biomaterials and Nanomaterials

Process Engineering

- Chemical and catalytic reaction engineering
- Separation and purification engineering
- Process systems optimization

Guest Editors

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q1 (General Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 5.7 days (median values for papers published in this journal in the first half of 2025).
