

## Feature Papers in Newborn Screening

Collection Editors:

**Dr. Ralph Fingerhut**

**Dr. Peter C. J. I. Schielen**

**Prof. Dr. Can Ficioglu**

**Prof. Dr. David S. Millington**

**Prof. Dr. Dianne Webster**

### Message from the Collection Editors

Dear Colleagues,

This Topical Collection will feature papers that are of exceptionally high quality and relevance for the readers of the *International Journal of Neonatal Screening*. They can either be written on invitation by the editors of this Topical Collection or received through the normal submission process and recognized as candidates to be included in the Topical Collection. Contributors may be from the ranks of the International Society for Neonatal Screening (ISNS) or from other fields of expertise. Suggestions for subjects and authors for papers for the Topical selection are welcomed by the editors of this Topical Collection.

## Message from the Editorial Board

The *International Journal of Neonatal Screening (IJNS)* is owned by the International Society for Neonatal Screening. The journal is a publishing platform for all topics concerning newborn screening and covers clinical presentations, metabolite pattern detection, technical aspects, and “tips and tricks”. “Tips and tricks” will appear in the form of “Technical Notes” on the journal website, thus making *IJNS* the platform for NBS laboratories to share their valuable information as to how they have improved assays, workflow, and performance. Such improvements are sometimes achieved through tiny adaptations of existing methods, which normally remain in lab journals, but which might help improve the performance of NBS laboratories around the world.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q1 (Pediatrics) / CiteScore - Q1 (Pediatrics, Perinatology and Child Health)
