

Special Issue

Selected Papers from 13th ISNS European Regional Meeting— Celebrating 10 Years of *IJNS*

Message from the Guest Editors

Only two months now and the 13th ISNS European Regional meeting will commence in Luxembourg. In keeping with previous ISNS conference, presenters of posters and presentations are encouraged to develop their conference contributions into a manuscript, that can be submitted under the flag of this special issue, that is dedicated to solidifying the scientific results of this 13th European regional meeting. Authors that would like to receive a 20% discount (320 CHF) on the Article Processing fees should visit the ISNS/IJNS booth at the conference and collect their free 20% discount voucher. As we will also celebrate 10 years of International Journal of Neonatal Screening, in this special Issue also other manuscripts that have not been presented at the meeting will be considered.

About the Journal

Message from the Editorial Board

The *International Journal of Neonatal Screening (IJNS)* is owned by the International Society for Neonatal Screening. The journal is a publishing platform for all topics concerning newborn screening and covers clinical presentations, metabolite pattern detection, technical aspects, and “tips and tricks”. “Tips and tricks” will appear in the form of “Technical Notes” on the journal website, thus making *IJNS* the platform for NBS laboratories to share their valuable information as to how they have improved assays, workflow, and performance. Such improvements are sometimes achieved through tiny adaptations of existing methods, which normally remain in lab journals, but which might help improve the performance of NBS laboratories around the world.

Editors-in-Chief

Dr. Peter C. J. I. Schielen

Office of the International Society for Neonatal Screening, Reigerskamp 273, 3607 HP Maarssen, The Netherlands
