

Special Issue

Equity Issues in Newborn Screening

Message from the Guest Editors

For this Special Issue, entitled “Equity Issues in Newborn Screening”, we seek a broad range of perspectives to provide insights into various aspects of equity issues that contribute to our understanding of, and ability to address, equity as related to newborn screening. Topics may include, but are not limited to, the following: Policy considerations surrounding proposed solutions; Comparative global reviews; Original research articles on equity issues; Ethical analyses of equity issues in a country or region; Implementation: how an NBS programme addressed/s equity issues; Assessing equity: how a programme or policy measures equity or the lack thereof; Scholarly perspective pieces; Equity challenges in the lab, public health setting, and/or clinical follow-up.

Guest Editors

Dr. Lynn Wein Bush

Dr. Juan Francisco Cabello

Dr. Amy Brower

About the Journal

Message from the Editorial Board

The *International Journal of Neonatal Screening (IJNS)* is owned by the International Society for Neonatal Screening. The journal is a publishing platform for all topics concerning newborn screening and covers clinical presentations, metabolite pattern detection, technical aspects, and “tips and tricks”. “Tips and tricks” will appear in the form of “Technical Notes” on the journal website, thus making *IJNS* the platform for NBS laboratories to share their valuable information as to how they have improved assays, workflow, and performance. Such improvements are sometimes achieved through tiny adaptations of existing methods, which normally remain in lab journals, but which might help improve the performance of NBS laboratories around the world.

Editors-in-Chief

Dr. Peter C. J. I. Schielen

Office of the International Society for Neonatal Screening, Reigerskamp 273, 3607 HP Maarssen, The Netherlands

Dr. Ralph Fingerhut
