

## Special Issue

# Newborn Screening for Cystic Fibrosis

### Message from the Guest Editors

This Special Issue of the *International Journal of Neonatal Screening* on Newborn Screening for Cystic Fibrosis will focus on the state-of-the-art of the neonatal diagnosis of CF, with an emphasis on the different screening approaches and their advantages and disadvantages. It will also provide insight into the dilemma of the inconclusive diagnosis after NBS, now designated as CF screen positive, inconclusive diagnosis (CFSPID), and psychological impact on parents, as well as the monitoring of the performance of the screening.

---

### Guest Editors

Prof. Dr. Jürg Barben

Division of Pediatric Pulmonology and CF Centre, Children's Hospital of Eastern Switzerland, CH-9006 St. Gallen, Switzerland

Prof. Dr. Kevin Southern

Institute of Translational Medicine, University of Liverpool, Liverpool L12 2AP, UK

## About the Journal

### Message from the Editorial Board

The *International Journal of Neonatal Screening (IJNS)* is owned by the International Society for Neonatal Screening. The journal is a publishing platform for all topics concerning newborn screening and covers clinical presentations, metabolite pattern detection, technical aspects, and “tips and tricks”. “Tips and tricks” will appear in the form of “Technical Notes” on the journal website, thus making *IJNS* the platform for NBS laboratories to share their valuable information as to how they have improved assays, workflow, and performance. Such improvements are sometimes achieved through tiny adaptations of existing methods, which normally remain in lab journals, but which might help improve the performance of NBS laboratories around the world.

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

#### Journal Rank:

JCR - Q1 (Pediatrics) / CiteScore - Q1 (Pediatrics, Perinatology and Child Health)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.7 days after submission; acceptance to publication is undertaken in 4.5 days (median values for papers published in this journal in the second half of 2025).
