

Special Issue

Innovative Design and Applications of Materials for Acoustically Performative Indoor and Outdoor Environments II

Message from the Guest Editors

This Special Issue aims to bring together contributions that could highlight the potential of new materials and combinations of different acoustic properties in order to maximize their effects on the acoustic performance of indoor and outdoor environments. This invitation for contributions is addressed to manuscripts in the form of research articles, review articles, and case study investigations that combine theoretical research and applications related to the design, modeling, optimization, fabrication, and acoustic characterization of acoustic materials. Moreover, we invite submissions on real applications and simulations in different environments as well as subjective investigations on the effectiveness of the applications for this Special Issue.

Guest Editors

Dr. Louena Shtrepi

Department of Energy, Polytechnic University of Turin, 10129 Turin, Italy

Dr. Arianna Astolfi

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Jian Kang

UCL Institute for Environmental Design and Engineering, The Bartlett,
University College London, London WC1H 0NN, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid
by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, and other
databases.

Journal Rank:

CiteScore - Q2 (Acoustics and Ultrasonics)
