

# Special Issue

## Classroom Acoustics: Creating Efficient Learning Environments

### Message from the Guest Editors

This Special Issue focuses on the broad topic of “Classroom Acoustics”. Acoustic comfort is one of the significant factors that affect occupants’ comfort, health, and performance. The poor acoustic design of spaces in buildings can affect occupants’ learning and work efficiency. The aim is to create efficient learning environments with desirable listening conditions. We invite contributions on topics related to classroom acoustics, including but not limited to innovative solutions for the development of quiet spaces, acoustic comfort, speech intelligibility, listening effort, acoustic materials, acoustic metamaterials, sound absorbers, etc., for this particular Special Issue. Research articles that cover theoretical and/or experimental studies, as well as comprehensive review or survey papers, are welcome. We hope that you will contribute a paper to this Special Issue. If you have any questions, please do not hesitate to contact us. Thank you for your consideration!

### Guest Editors

Prof. Dr. Lily Wang

Durham School of Architectural Engineering and Construction,  
University of Nebraska–Lincoln, Omaha, NE 68182-0816, USA

Dr. Sanjay Kumar

Durham School of Architectural Engineering and Construction,  
University of Nebraska–Lincoln, Scott Campus, Omaha, NE 68182-0176,  
USA

### Deadline for manuscript submissions

closed (30 December 2022)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Jian Kang

UCL Institute for Environmental Design and Engineering, The Bartlett,  
University College London, London WC1H 0NN, UK

---

#### Author Benefits

##### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

##### High Visibility:

indexed within ESCI (Web of Science), Scopus, and other databases.

##### Journal Rank:

CiteScore - Q2 (Acoustics and Ultrasonics)
