Message from the Guest Editor

The current Special Issue seeks novel contributions that can illustrate and potentially expand the CBD perspective on entrepreneurship by showcasing how individual and local psychology interact to determine various entrepreneurial outcomes.

Contributions of qualitative, quantitative nature, as well as mixed-method research are welcome in this Special Issue. We will give preference to papers that best showcase the interaction between the behaviour of places and the behaviour of people with a significant impact on entrepreneurial decision making, economic profit, and firm survival.

The topics are but not limited to:

- culture;
- entrepreneurship;
- cultural capital;
- behavioural regional economics;
- culture-based development
