Deadline for manuscript
submissions:

closed (31 December 2019)

Message from the Guest Editor

Industrial Ecology (IE) is as a broad and interdisciplinary field of research, focused on environmental, economic and social improvements in production and consumption activities. It proposes theoretical approaches, organization and management strategies, and government policies aimed to ensure environmental safeguards and quality of life. Innovation studies concern the nature and dynamics of changes that characterize the economic world, focusing on the capacities and limitations of innovations to achieve socio-economic transformations.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.
