

Special Issue

From Projects to Strategy: How Project Management Drives Strategic Decision-Making in Modern Business

Message from the Guest Editors

This Special Issue on Project Management and Strategic Decision-Making in Business Organizations aims to bring together contributions that explore the intersection of managerial practice, organizational strategy, and project-based work. Our goal is to provide both theoretical insights and practical perspectives on how project-oriented approaches can support strategic alignment, improve decision-making under uncertainty, and enable firms to navigate transformational change. We invite high-quality scientific research papers that address, among others, the following topics:

- Integration of project management into corporate strategy;
- Decision-support models and tools for managers;
- Governance and risk management in project portfolios;
- Innovation and agility in strategic project environments;
- The human and intercultural dimensions of project-based decision-making.

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
