

## Special Issue

# AI, Tokenization, and FinTech: Implications of Governance Issues

### Message from the Guest Editors

The Special Issue allows contributors to spotlight their contributions to the broad topics in recent technology innovation in the finance area and its implications for corporate governance practices. Contributions from the sub-fields of accounting, finance, economics, law, international business and venture capital are welcome in business and economics. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- The role of Board and shareholder activism to the acceptance of tech innovation;
- Tech innovation and the role of institutional investors;
- Corporate sustainability and climate change;
- Environmental issues and new business venturing;
- Sustainable growth with tech innovation and its relation with corporate government;
- Capital market responses to tech innovation;
- Managerial incentives for tech innovation;
- Fintech and governance issues in emerging markets;
- Measuring the acceptance of tech innovation and its relation to firm performance.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.
