

Special Issue

Digital Challenges and Financial Analysis Systems in Entrepreneurship and Public Management

Message from the Guest Editors

Research in this Special Issue may delve into the following:

- The integration of Key Performance Indicators (KPIs) and data-driven metrics for institutions of the Public Sector to enhance strategic alignment and accountability.
- The use of strategic scorecards and simulation tools in health, education, or transport departments to support evidence-based planning and resource optimization.
- How digital innovation, big data, and computational modeling improve the agility, foresight, and responsiveness of public administration in rapidly changing policy environments.
- How strategic management can affect the efficiency and profitability of businesses and reduce both business and financial risk.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
