

Special Issue

Effectiveness of Relations in the Inter-Organizational Network

Message from the Guest Editor

This is a call for papers on the general topic of Effectiveness of Relations in the Inter-Organizational Network. The issue editor is Grzegorz Michalski (author of Value-Based Working Capital Management, Palgrave, 2013). Potentially all topics in measuring effectiveness of relations and in inter-organizational network are open for inclusion in the issue. However, the editor is particularly interested not only in mainstream but also in relatively understudied and emerging topics. These topics include the application of energy based effectiveness or financial effectiveness to evaluation of effectiveness of relations or better understanding of inter-organizational network relations. There are also welcomed papers about measuring effectiveness of relations in inter-organizational network of medical, real government agencies, industrial, nonprofit, educational and other entities. In other words, we are interested in contributions that assist to perform competent analysis of effectiveness of relations in inter-organizational network in each new knowledge bringing perspective.

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
