

## Special Issue

# Opportunities and Challenges of Metropolitan Governance

### Message from the Guest Editor

The Special Issue welcomes contributions from a variety of disciplines, including urban planning, public administration, urban affairs, land use, and related fields. The Special Issue welcomes a variety of perspectives (complexity sciences, computational modeling, systems analysis, policy studies, urban design, administrative studies, organizational and management theory, public health), as well as a variety of analytical techniques and methodologies. The subject areas of interest for this Special Issue include topics such as housing policy and strategies, transportation management, use and implementation of smart technologies, infrastructure project management, community development, and health and urban populations. Research that demonstrates paths toward achieving sustainable, resilient, and viable communities that promote social equity and diversity through the adaptive qualities of metropolitan regional strategies is most welcome.

## About the Journal

### Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.
