

Special Issue

Digital Capabilities in Innovation and Strategy amid Technological Development and Economic Uncertainty

Message from the Guest Editor

This Special Issue invites you to submit fresh theoretical perspectives and empirical insights into corporate-level dynamics and decision-making, particularly answering how contemporary digital transformation trends influence the antecedents, processes, and consequences of corporate strategic decision-making. The following research questions are to be answered for this Special Issue:

- How do digital dynamic capabilities and open innovation practices drive profound changes in companies' business models in the value-creation process in the context of technological development and economic uncertainty?
- How does the renewal process of business models influence their digital transformation?
- How are the dimensions of digital dynamic capabilities interrelated in the context of technological development and economic uncertainty?
- How does this interplay relate to digital transformation within open innovation practices in the context of technological development and economic uncertainty?

Guest Editor

Prof. Dr. Andrejs Čirjevskis

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
