

Special Issue

Research on Nascent Innovative Entrepreneurship

Message from the Guest Editors

Innovative entrepreneurship appears as one engine for developing a knowledge-based society in modern times. Innovative entrepreneurs channel new knowledge and technological opportunities into products and services, the need of which could not have been imagined a few decades ago. Digital technology and the Internet have fundamentally transformed people's behaviour and habits. We experienced the importance of biotechnology in the search for a vaccine during the COVID crisis. These manifestations illustrate the connection between new scientific knowledge and everyday life. The current Special Issue deals with nascent entrepreneurship, which mediates new knowledge to real life, characterised by its innovativeness.

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
