

Special Issue

Financial Technology Innovation and Risk Management

Message from the Guest Editors

The Special Issue aims to determine how technology-driven innovation can better promote the healthy development of financial services and how to better manage financial risks. Theoretical, conceptual, and empirical contributions in the field of financial innovation and risk management including, but not limited to, the following topics are welcomed:

- Channels for financial innovation to promote firm development;
- Climate finance and risk management of energy firms;
- Climate risks and their impacts on financial innovation;
- Financial innovation and implications for climate risk management;
- Financial innovation and risk management in the context of big data;
- Green finance and financial innovation;
- Risk management based on financial innovation;
- Risk management of energy firms under climate policy uncertainty;
- The impact of climate policy on corporate governance;
- The impact of financial innovation on financial institutions

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
