

Special Issue

Organizational Adaptation to Exogenous Shocks: How Organizations Respond to Environmental Disruptions

Message from the Guest Editors

Dear colleagues, This call for papers invites scholars and practitioners to explore organizational strategies for sustainable organizational performance in disruptive environments. The goal is to deepen our theoretical and practical knowledge in this area of research. The focus of the papers should be on understanding the challenges and opportunities presented by disruptive events and on proposing models for mitigate them. By contributing to this Special Issue of Administrative Sciences you will be joining a global conversation on how organizations can effectively buffer themselves from the impact of disruptive exogenous shocks. As such, we invite submissions of original papers that will advance our knowledge in this important area of research.

- strategic management
- exogenous shocks
- environmental disruptions
- organizational adaptation
- sustainability

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
