

Special Issue

Digital Management and Business Models in Public Administration: An International Perspective

Message from the Guest Editors

We are seeking submissions for this Special Issue. This call is issued in the context of clearly growing interest in the conceptual building of innovative public administration, the use of modern management tools, specifically the possibility of using business models and digital management to increase the efficiency and pro-client orientation of public administration and the need to create intuitive tools to ensure the effectiveness of public policies. This Special Issue will focus on all issues related to Public Administration, including but not limited to:

- digital management
- effectiveness
- sustainable development goals
- responsiveness
- participation
- citizens
- communities

The contributors may focus on the experiences of individual countries, or they may provide broader international perspectives. Comparative papers containing clear analyses of empirical data will be preferred, but interesting case studies leading to a better understanding of some specific phenomena are also welcome.

Guest Editors

Prof. Dr. Tomáš Peráček

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
