Entrepreneurship and Disruptive Technologies: Embracing Innovation

Message from the Guest Editors

This Special Issue, “Entrepreneurship and Disruptive Technologies: Embracing Innovation,” aims to encourage research that achieves the following goals:

- Advances theoretical understanding of how disruptive technologies reshape entrepreneurial cognition, opportunity recognition, and innovation processes.
- Explores new business models and strategies enabled by disruptive technologies, including platform-based and data-driven approaches.
- Examines organizational capabilities required for technology-led entrepreneurship and digital transformation in new ventures.
- Investigates ethical, societal, and regulatory issues stemming from entrepreneurial use of disruptive technologies.
- Encourages multidisciplinary and methodologically diverse research, reflecting the complex nature of technological disruption.

The Special Issue welcomes a diverse set of scholarly approaches, including quantitative studies, qualitative research, mixed-methods designs, conceptual or theory-building articles, systematic literature reviews and meta-analyses, and practice-oriented studies that provide actionable insights for entrepreneurs and policymakers.

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.
