

Special Issue

Supply Chain in the New Business Environment

Message from the Guest Editor

This special Issue calls for papers that deal with supply chain management, either in relation to approaches currently in use or that the future world is expected to deploy. Both theoretical and empirical contributions are welcome. Potential topics include, but are not limited to, papers on the following topics:

- Emerging technology trends and innovation in supply chain management;
- Supply chain management and sustainability;
- Purchasing and Physical distribution and logistics;
- Supply chain resiliency and management in times of crisis;
- Supply chain integration;
- Supply chain management and performance;
- Collaboration and relationships in supply chain;
- Sustainability and social responsibility in supply chain;
- Digital transformation in supply chain;
- Artificial intelligence in supply chain;
- Supply chain management in service industry;
- Supply chain management and poverty;
- Supply chain management and climate change.

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
