Women, Empowerment and Entrepreneurship Development in Emerging Economies and the Global South

Message from the Guest Editors

The empowerment of women is a pivotal antecedent to gender equality. Women's entrepreneurship development is often presented as a valuable tool to promote gender equality. It is equally important as part of a broader treatise surrounding human and economic development, and more recently, preserving and improving well being, and sustainable development. Relatively little is known regarding empowerment and equality outcomes via female venturing. Especially the contextual embeddedness of female entrepreneurship in specific cultural environments is of great relevance in this regard. The SI encourages submissions (conceptual, empirical, reviews) that help building a robust understanding of the relationship between female entrepreneurship, empowerment and gender equality and with regards to different analysis levels, such as the global, the state and the micro levels (individuals and companies).

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
