

Special Issue

Innovation and Entrepreneurship: Opportunities, Societal Challenges, and Sustainability

Message from the Guest Editors

Recent years brought a renewed interest on sustainable development, especially targeted at emergent research topics such as the environmental impacts, climate change, food scarcity and security, health impacts, well-being, and social inclusion, reshaping new tendencies for entrepreneurial ventures creation and eco-innovation generation, focused at answering such societal challenges. Thus, there is a need to address sustainable entrepreneurship and innovation from a multidisciplinary lens crossing the entrepreneurship and innovation focused on sustainability, ensuring economic benefit and business growth. New research is welcome to advance knowledge about the societal and sustainable requirements for entrepreneurial ventures and innovation generation, the development of adequate business models to guide exploration, the set of challenges and opportunities, or the digitalization processes targeted at sustainable development, and this Special Issue will give us the possibility to look inside this emergent field.

About the Journal

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Editor-in-Chief

Prof. Dr. Isabel-María García-Sánchez

Department of Business Administration and Economics, Universidad de Salamanca, 37007 Salamanca, Spain
