

Special Issue

Airborne Biological Particles: Characterization, Monitoring, and Health Relevance

Message from the Guest Editors

This Special Issue is dedicated to advancing the understanding of bioaerosols and their impacts on human health. Bioaerosols—airborne particles of biological origin—play a significant role in environmental exposures that influence public health outcomes. This Special Issue brings together multidisciplinary research focused on three main areas: bioaerosol characterization, atmospheric monitoring, and exposure risk assessment. You may choose our [Joint Special Issue](#) in *Atmosphere*.

Guest Editors

Dr. Ana Catarina Galveias Jorge
Dr. Ana Cristina Rodrigues Costa
Dr. Célia Maria Miguel Antunes

Deadline for manuscript submissions

30 April 2026

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Chad J. Roy
Department of Microbiology and Immunology, School of Medicine,
Tulane University, New Orleans, LA, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

Rapid Publication:

first decisions in 19 days; acceptance to publication in 4 days (median values for MDPI journals in the first half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and reviewer names published annually in the journal.
